Engagement with Literature Skills — 10

Feedback	Marks
To do well in this task, throughout the work, you must be informed and supported by academic/industry credible literatures relevant to computer/digital forensics. Your Task 1 documentation must reflect on your research focusing computer/digital forensics definitions, history and comparisons. It also must cover the scope and applications in real-world scenarios. You must have covered the features and capabilities of tools in Task 2 and 3 presentation based on your research. You did well in this section. In-text citations done. Scope and applications discussed well. Real-world scenario discussed. Research on the features of the Tools presented. Could have referred to more adequate academic credible literatures. Criticial appraisals on the literatures could have added value to your work.	7.8

Knowledge and Understanding Skills — 8

Feedback	Mark
In this section, you must have demonstrated sound knowledge and understanding by identifying appropriate tools based on its features, categories and by exploring recent advancements/ innovations in it. Categorisation of identified tools done. Recent advancements in the field explored	6.4

Cognitive and Intellectual Skills — 32

Feedback	Mark
To do well in this section, you should be able to critically analyse the difference between computer and digital forensics, evaluate the capabilities of tools used, distinguish each tool. Your work must contain reflection on real-world use cases, describing, justifying the methodology used with adequate contingency plans and valid, sound conclusions derived from the task. Examples discussed. Capabilities of the tools categorised. Real-world use cases presented. Continuity of Evidence documented. You addressed contengency plans in your research - What is your work's contengency plan? Could have been in place. Could have described more about the Methodology. It is the proven process/ structured approach ensuring that your work is systematic.	22

Practical Application Skills — 30

Feedback	Mark
To do well in this task, you are expected to use/deploy a range of established techniques within Computer Forensics to secure the evidence, investigate applying the relavent concepts and principles and demonstrate the outcome. Analysis done well. Appropriate tools used. Findings discussed well. Screenshots timestamped and demo done.#	26.3

Transferable Skills for Life and Professional Practice — 20

Feedback	Mark
To do well in this section, you must showcase evidence of the qualities and transferable skills necessary for completing this task exercising personal responsibility and decision making. Using appropriate definitions, acronyms and abbreviations, a complete professional report and presentation with supporting documents is also considered. Logical flow of ideas are clear. Supporting documents presented. Good Presentation.	18
Overall Mark	81
