To do well in this section one needed to demonstrate cognitive and intellectual skills by critically analysing and evaluating different technologies and methods used in practical work. There was also a need to answer the why , how and when , questions so as to give justification for arguments and judgements made through out the whole assignment. Could have focused on more critical analysis and justification on technology used.	15.6

For a student to excel they needed to provide evidence of the practical work done by using time stamped screenshots and a narrative text to accompany the screenshots. It needed the skill to know which screenshot to include as part of evidence and at the end it is actually the combination of appropriate screenshots and the narrative texts that will convince the examiner of work done. You did a good job although you did not capture some other important events. You did a good job on your practicals	33.5
