This section carried the most weight and for a group to excel they needed to provide evidence of the practical work done by using time stamped screenshots and narrative text to accompany the screenshots. It needed skill to know the screenshot to include as part of evidence and at the end it is actually the combination and quality of screenshots and the accompanying narrative texts that will convince the examiner of the extent of which the tasks given were executed. You did a good job although your screenshots needed a brief narrative in context to avoid creating a user manual.	33.6
