Public Policy & Strategies in Health

**Wider Determinants
of Health**

Wider Determinants of Health

Examples of Health Inequalities (Wales)

Prevalence of **specific diseases**

Life **expectancy** gap

Child health

Healthy life expectancy

Mortality rates

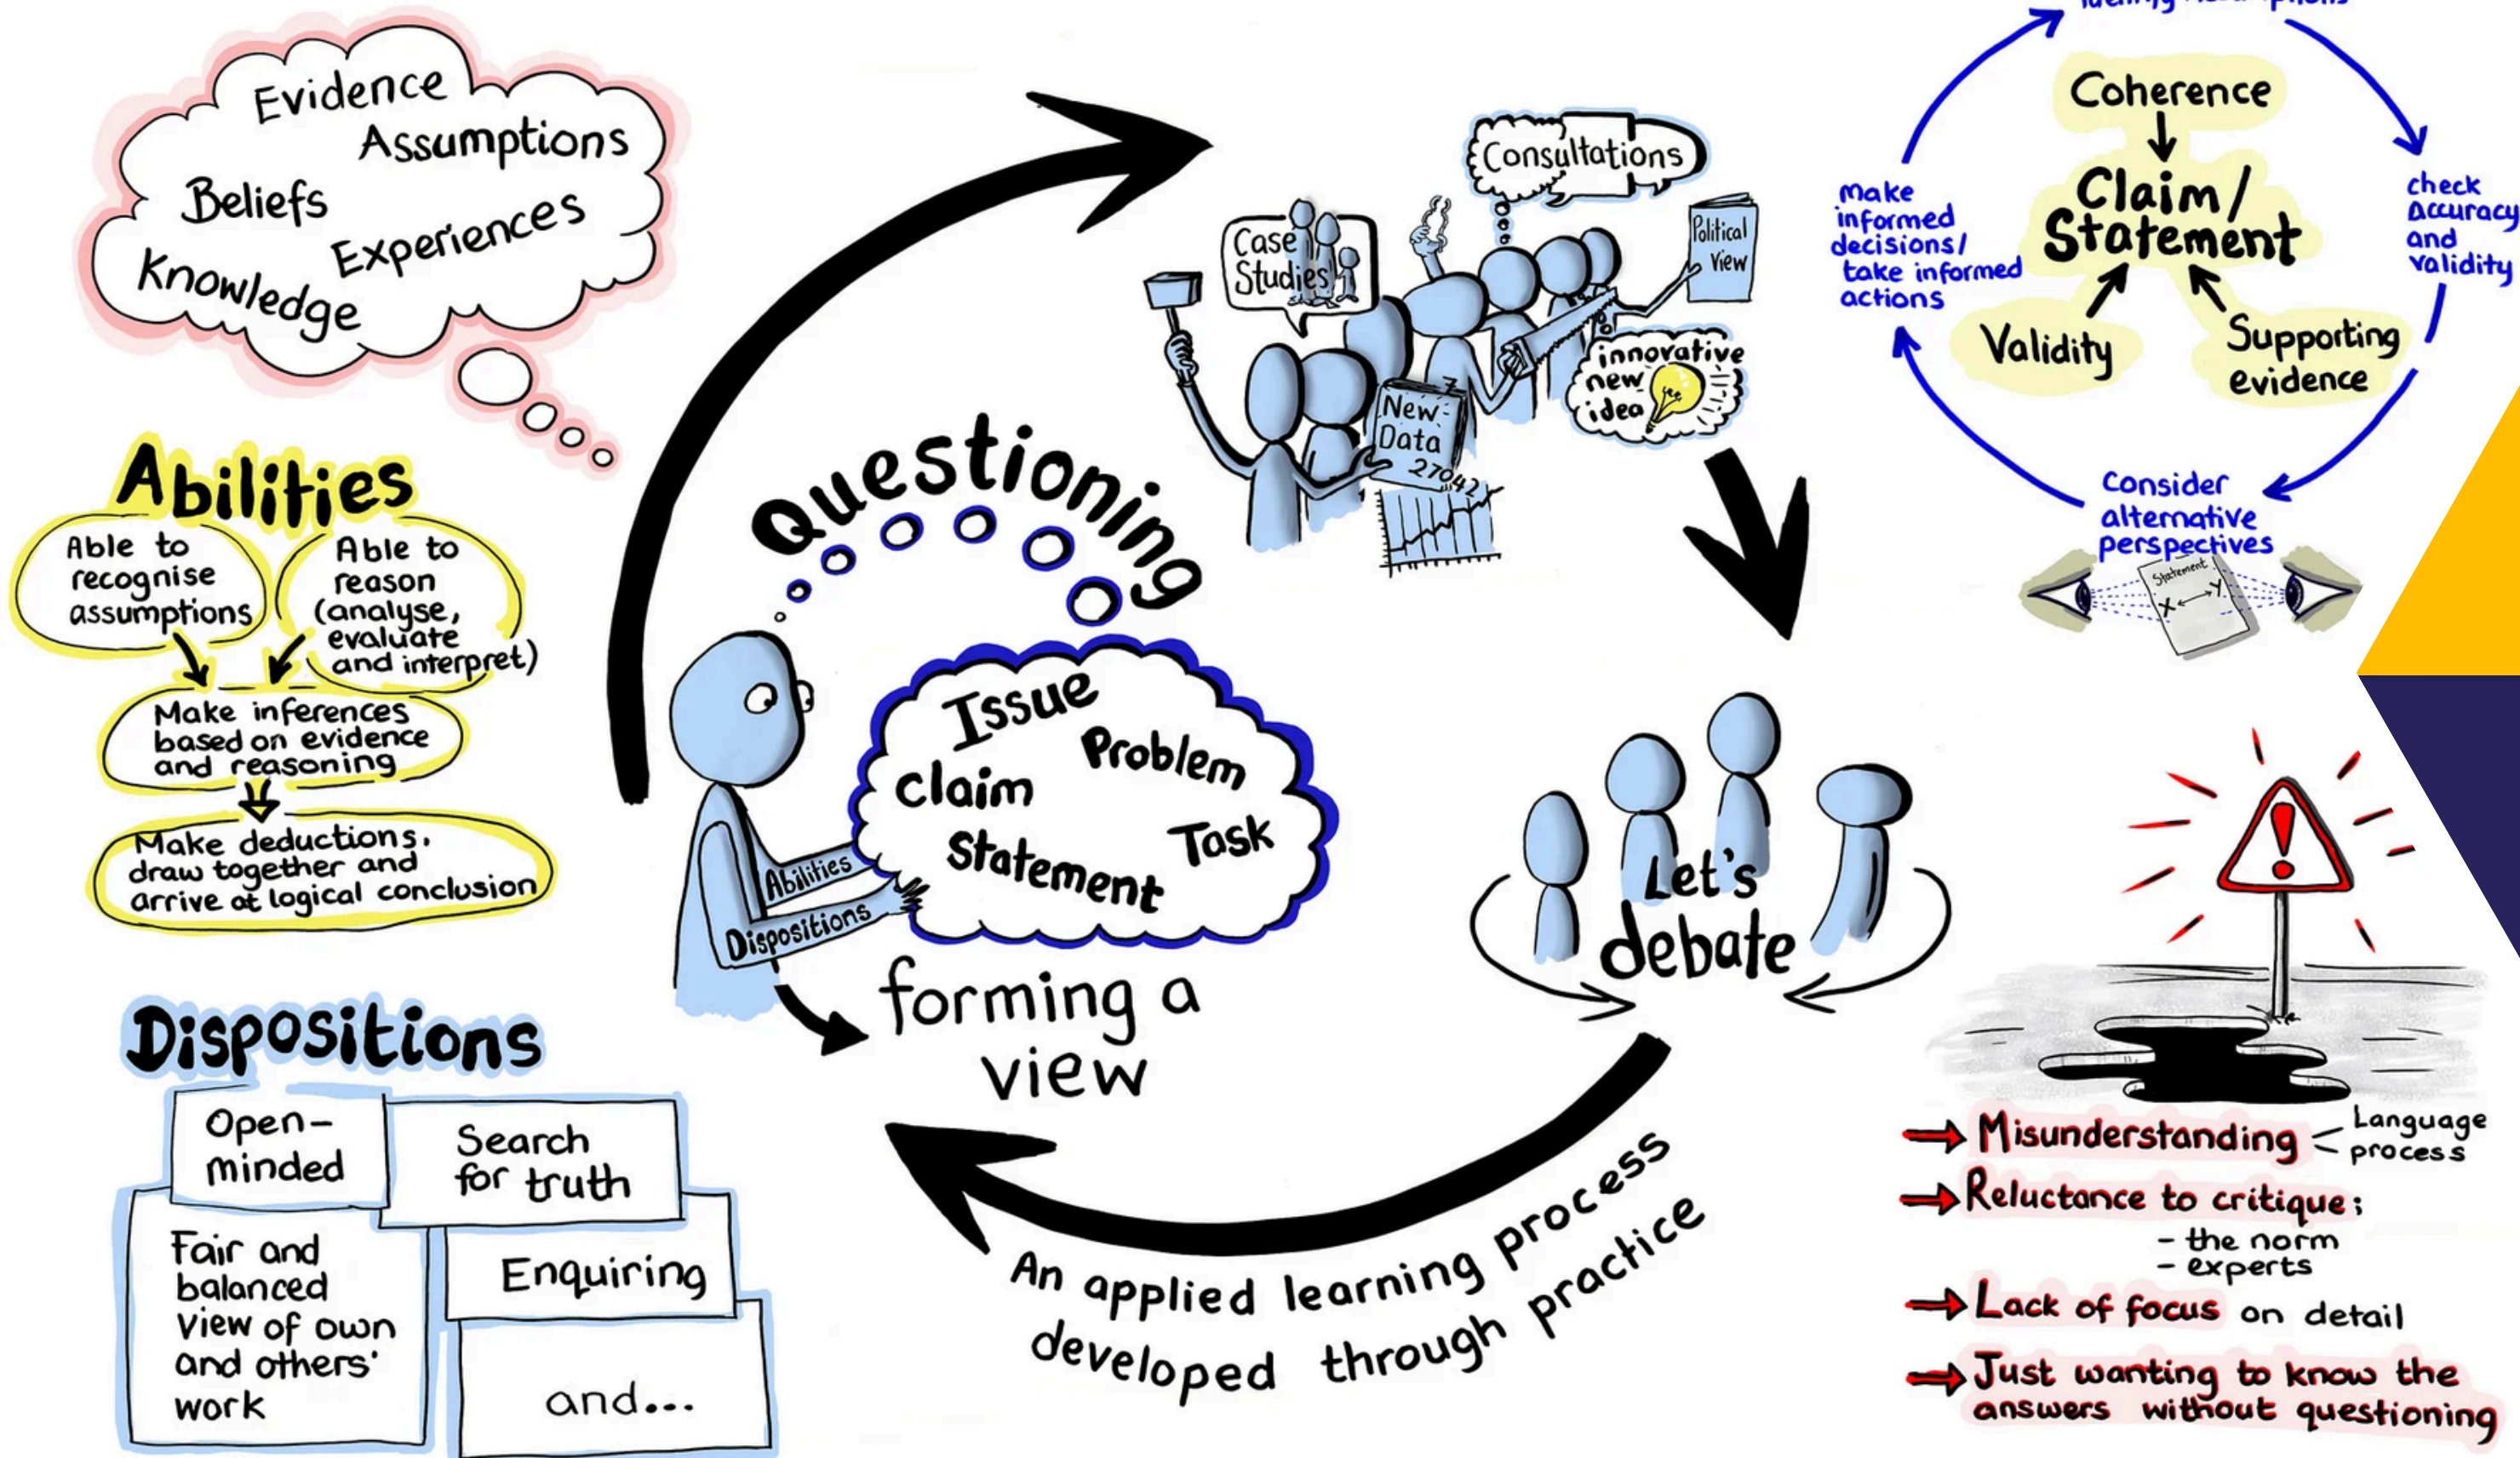

Explore:

1. Define, describe and explain your chosen inequality
2. Epidemiology data on (comparative Wales/Uk and more)
3. Impacts and effects on the population and societal domains
4. What strategies exist? In Wales and UK?
5. Impact of strategies tailored to this particular inequality
6. Critique for these strategies / current results / gaps
7. What is the current status? Your assesment and position
8. Your recommendations (informed)

Critical and Analytical Thinking

Objective analysis and evaluation of an issue in order to form a judgement

Succeeding in Postgraduate Study

Next Week

1. **What is Epidemiology?**
2. **How does epidemiology inform public health decisions/ policies / strategies? (Examples)**
3. **How is epidemiologic data disseminated in the community (examples of good & bad practice)**
4. **Which reliable and reputable sources of epidemiological information do we have access to?**
