In this section you need to do in-text referencing from academic credible and relevant diversity of sources. Where possible you are expected to critically appraise the literature engaged. You are expected to apply appropriate referencing conventions. NB Academic Credible literatures score high. Introduction to Threats, Vuln and Attacks need more discussion. Recent attacks discussed. Could have discussed more recent attacks. Similar attacks in the past with more details could have added value. More academic credible literatures, related industry discussion forums, summaries on the literatures and critical appraisals required.	17.3

Based on Part 1 activity, the scores are reflected. To score high marks strong knowledge and clear understanding of various terminologies and technologies that were used, referred to, installed during lectures/practical tasks etc. Note that the MCQ test you took was out of 35 marks. That is calculated for 30%. Just for you understanding and to avoid confusion, the MCQ marks are displayed in Knowledge and Understanding Section for 30 Marks. However, Originally, they are considered 20 Marks in Knowledge and Understanding section and 10 Marks in Congnitive and Intellectual Skills.	22.29

Cognitive and Intellectual Skills	5

To do well in this section you must demonstrate cognitive and intellectual skills by critically analysing and evaluating the security measures/mitigation strategies. There was also a need to answer the why , how and when , questions so as to give justification for arguments and judgements made through out the whole work. You did well in this section. Key observations made. Rather than focusing on Firewalls alone, in one of your mitigation strategies, could have discussed more measures.	3.5

Practical Application Skills	30

To excel you need to provide evidence of 2 tools used in their lab activities with adequate screenshots. A discussion on similar kind of tools with implemented outcomes with adeqaute screenshots is required. Strong reasons on the similarity, pros and cons of both the tools need to be narrated along with the screenshots. Tools were discussed and classified. Screenshots provided. Could have detailed the implementation more elaborately. Analysis on the pros and cons of both the tools has room for improvement. Had error in OpenVAS installation. Did you manage to troubleshoot?	21

Transferable Skills for Life and Professional Practice	5

To score high you must ensure that the document is of high quality and professionally done. There should be a good flow of ideas , with evidence of proper use of the spelling and grammar tool and a complete and neat presentation of work. Documentation could have been more professional. ToC, Appropriate numbering the chapters/ sub chapters, names for figures could have made the flow easy to follow.	2.4
