MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
N/A	0	0
2. Knowledge and Understanding Skills		
N/A	0	0
3. Cognitive and Intellectual Skills		
Upon loading of your simulation - communication between all devices and loopback are not responding - this translates to the routing not being configured correctly. But PC1 was able to communicate to AS1 via Telnet	20	4
4. Practical Application Skills		
External elements (Packet Tracer task/Final Exam on NetAcad) are all fine Devices on Packet Tracer have been setup correctly. Initial router configuration and their interfaces are setup for IPV4, but not IPV6. Setup of routing protocols not setup at all - you should have been using RIP2 (its in the brief), this translates to no communication between the routers, thus pings will not work. However, the configuration of the switch has been correctly setup. Just one final thought - be mindful of the differences between FUH/LUH as a misquoted IPV4 address will ensure your simulation will not work as the scenario wants Simple message here, you should have been practicing the various practical elements from NetAcad	80	51
5. Transferable Skills for Life and Professional Practice		
N/A	0	0

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)	Late Submission Penalties (tick if appropriate)		55
