DEVELOPING RESEARCH

Theory and Practice

Faculty of Education and Communities

We are pleased to invite you to the Developing Research conference for all **Level 7 students** across the Faculty of Education and Communities. Now in its third year, this conference will support you in developing the practical research skills needed during your Masters' journey and give you the opportunity to meet with other researchers and share ideas. Drawing on expertise across the Faculty, the day is organised to equip you with the skills needed to apply theory to the context of your own study. It is a day not to be missed!
