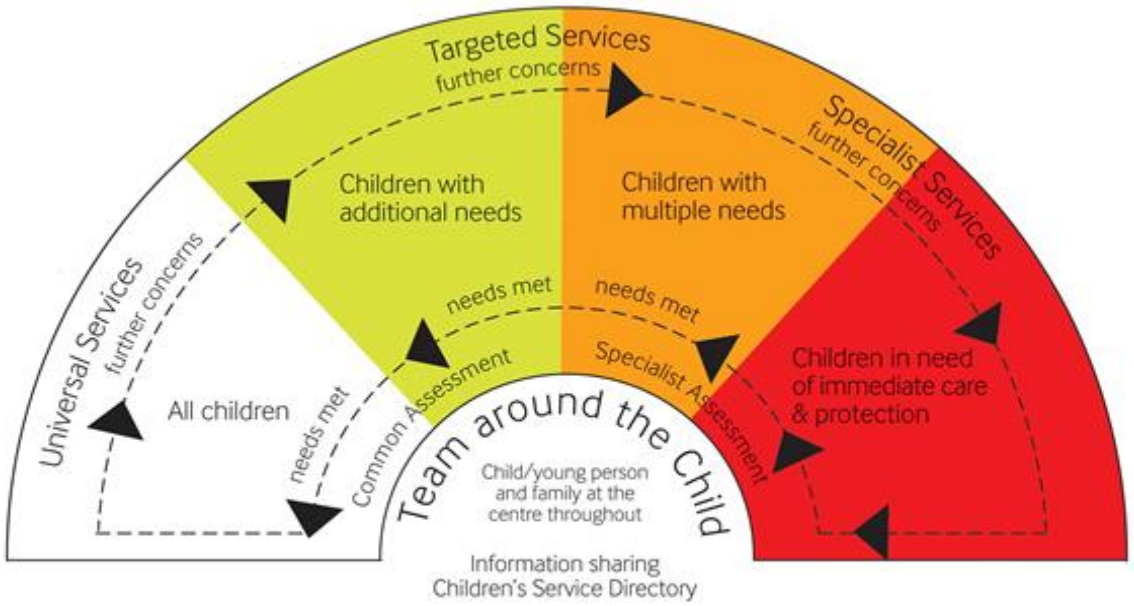
Child protection

'Term used to describe efforts that aim to keep children safe from harm. Child protection refer to preventing and responding to violence, exploitation and abuse against children' (fhi360, 2012).



Continuum of Needs
(commonly known as The Windscreen)

(SurveyMonkey, 2021)

Child Protection is recognizing when a child is in danger or at risk from abuse and how to act to protect them. (Briggs, 2012).

Safeguarding is the care and meeting health and safety needs in the setting. (Hobart, 2005).

Principles for integrated child protection systems.

every child is recognised, respected and protected

no child is discriminated against

child protection systems include prevention measures

families are supported in their role as primary caregivers

society is aware and supportive of the child's right to freedom from all forms of violence

child protection systems ensure adequate care

child protection systems have transnational and cross-border mechanisms in place

no child should be without the support and protection

adequate training given to teachers, health sector professionals, and social workers

safe, well-publicised, confidential and accessible reporting mechanisms are in place (European Commission, no date).
