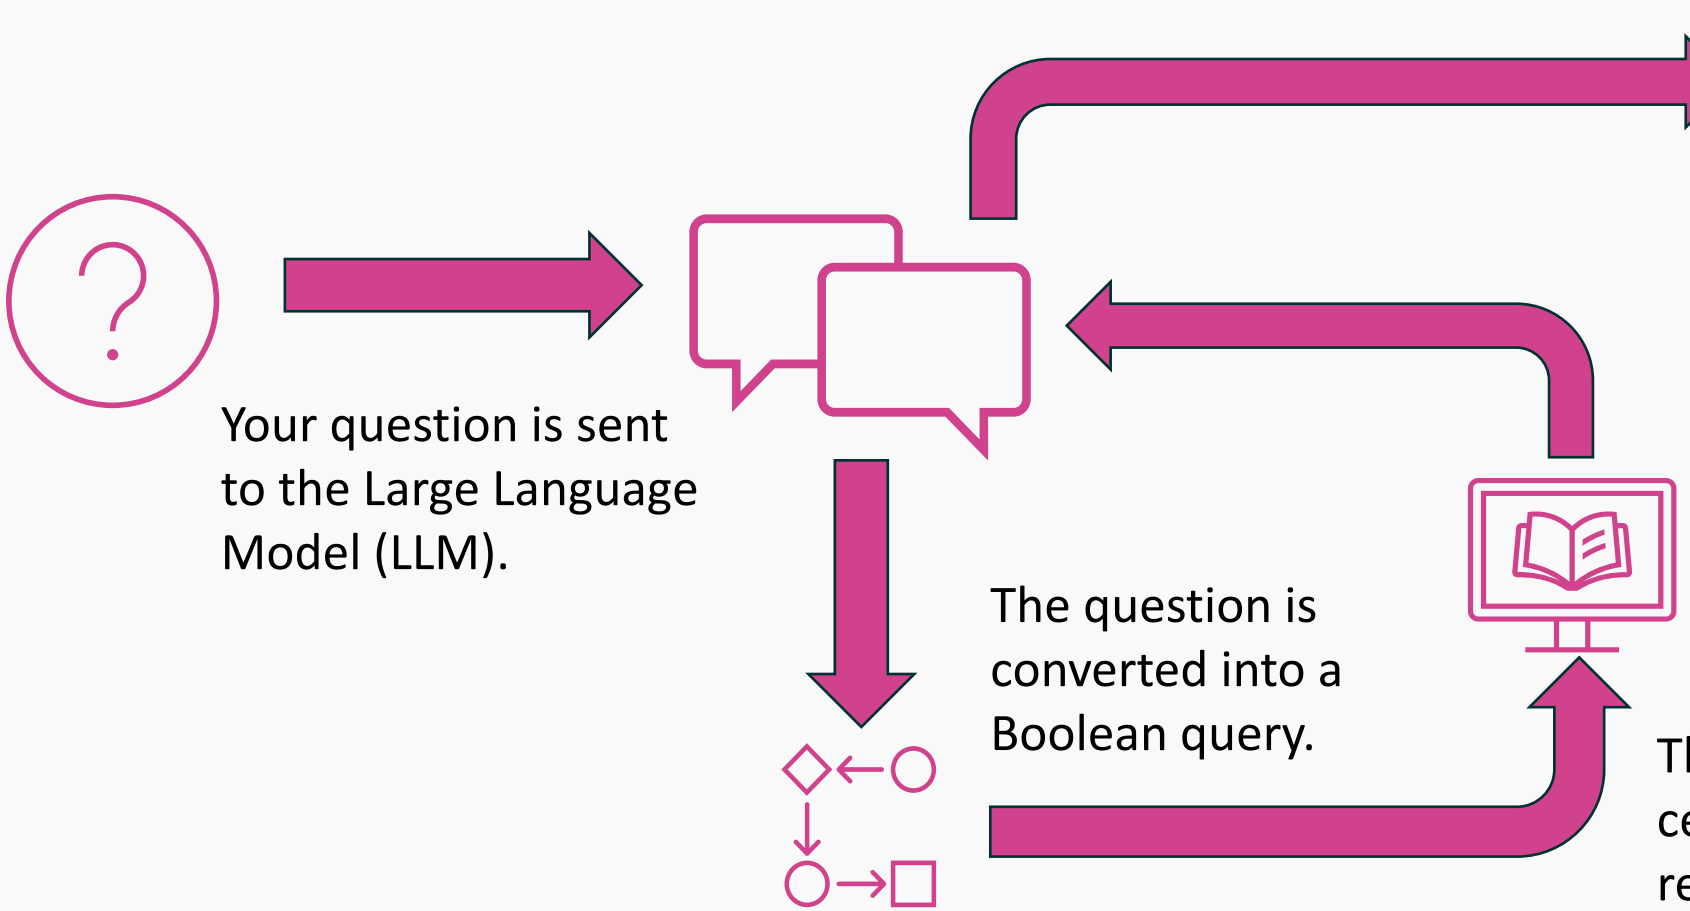
- Benefits of using ratio analysis in financial planning
- Comparison of different ratio analysis methods in financial decision making

Library Results

Library Intranet

How it works

The AI generated overview and sources are returned in the response.



Your question is sent to the Large Language Model (LLM).

The question is converted into a Boolean query.

The Boolean query is sent to the central Primo library catalogue to retrieve results.

The top 5 results are sent to the LLM to create an overview with in-text references based on the **abstracts.**

Search results

Important: It does not search everything. **You will still need to perform your own search!**

It does **not** currently search the following:

- **Any collections** from the following content providers - APA, DataCite, **Elsevier, JSTOR,** Kogan Page and Conde Nas.
- News content (newspaper articles, newsletters, text resources).
- Collections that are not marked as 'free for search' in the CDI collection list.

Furthermore, certain requests or queries are unavailable:

- Requests for materials of a particular type, e.g. **"*give me peer reviewed articles on x.y.z*"**
- Requests for materials from a certain time period, e.g. ***"give the most recent information on climate change"***
- Follow up questions are not supported. Each question stands alone, and all relevant information needs to be asked in each.

Library result search string

This is a copy of the search string created by the AI tool to search for results in the library catalogue.

(ratio analysis in financial decision making) **OR**
(importance of ratio analysis in finance) **OR**
(application of ratio analysis in financial management) **OR**
(role of ratio analysis in financial planning) **OR**
(significance of ratio analysis in decision making) **OR**
(Importance of ratio analysis in financial decision making) **OR**
(Application of ratio analysis in making financial decisions) **OR**
(Significance of ratio analysis in financial decision-making process) **OR**
(Role of ratio analysis in financial decision making) **OR**
(Utilization of ratio analysis for financial decision making) **OR**
(How is ratio analysis used in financial decision making?)

Tip:
Note the keywords and terms it applies and use these with Boolean Operators to perform your own search in the library catalogue.

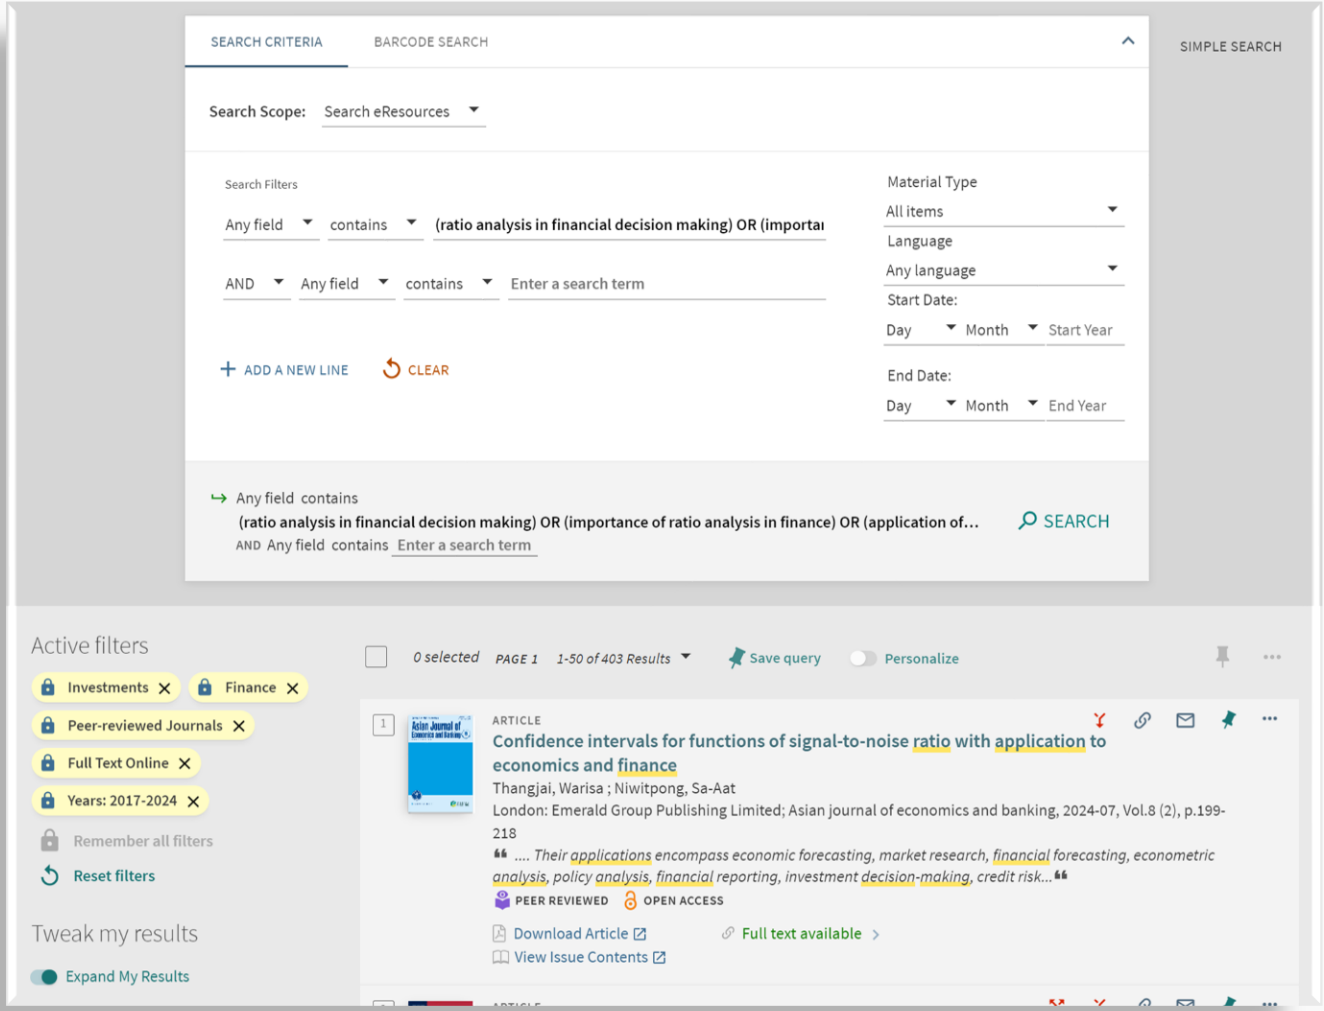
Library Results

Library results (with filters)

Tip:

- Open up in the Advanced Search view and explore some of the suggested keywords.
- Try subject searching or title searching, along with date and further subject filters.
- Explore further and narrow down results.

Further results



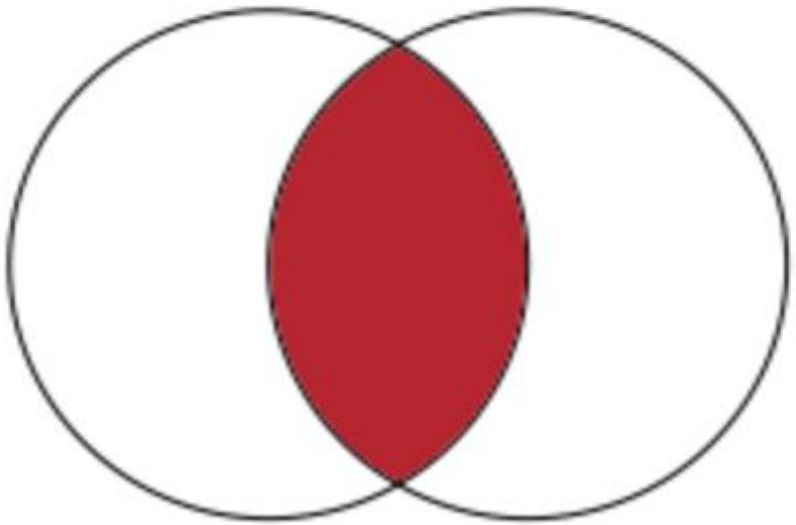
Advanced Search Process

Formulate	Formulate a search with key concepts
Choose	Choose the databases
Find	Find synonyms, **alternative keywords**
Combine	Combine your keywords and run search
Review, adjust and add	Review, adjust and add limits (if necessary)
Save	Save your results and search history

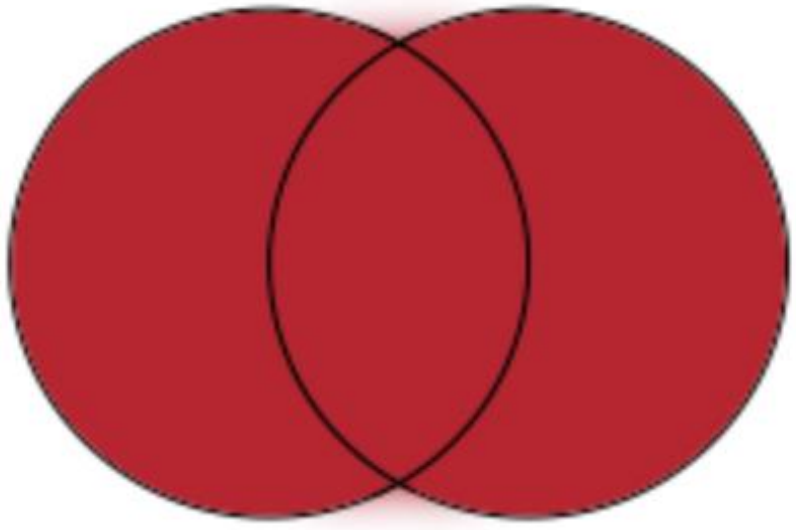
Advanced Search Tips

Finding a relevant article / book can lead to many more resources.

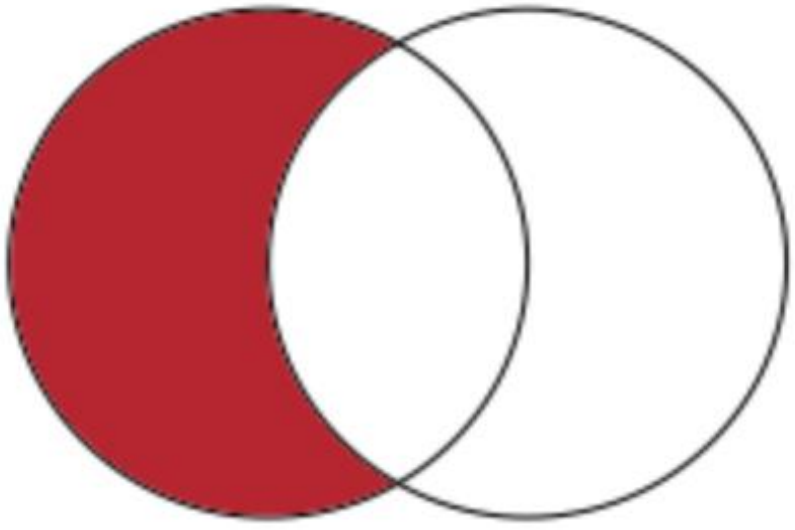
- Note key words / concepts / terminology used
- Check cited in and cited by
- Locate key journals and authors
- Explore subject headings (SH) : Check out SH below the bibliographic details in the catalogue record.
- Use filters: date, location, type of resource



AND



OR



NOT

Boolean Operators allow you to **combine your keywords** to narrow or broaden your search.

- **AND**: narrows your search by only giving results where **ALL** your search terms are present.
- **OR**: broadens your search where **ANY** of your search terms are present.
- **NOT**: Excludes specific terms

Search Operators

Operator	Explanation	Example
AND	Will bring back search results containing both searched terms. Must be capitalised.	Leadership **AND** Organisational Culture
OR	Will bring back results containing one of the searched terms. Must be capitalised.	Leadership **OR** Management
NOT	Will exclude a certain term from the search results. Must be capitalised.	Organisational Culture **NOT** Health
( )	Help to determine an order of results when using more complicated search terms.	Organisational Culture **AND** (Leadership **OR** Management)
“ “	Will search for a specific phrase instead of the words separately.	“Organisational Culture”
?	Allows you to leave a blank in a term to allow for multiple spellings. Can be used for more than one letter.	Organi**?**ational Culture
