Marked By	Nitheesh Murugan Kaliyamurthy

Engagement with Literature Skills — 10

Feedback	Marks
In this section to do well, you need to do in-text referencing from credible and relevant diversity of sources for recent cyber attacks, AI in Cybersecurity, Scope, Strengths and Limitations in it. Where possible you will be expected to critically appraise the literature engaged and to apply appropriate referencing conventions. Needs a lot of improvement. In-text referencing not done. Being in a Level 6 module, and not presenting a report with appropriate in-text citations is surprising!. Bibliography for the work done is attached. Extensive literature reviews with critical appraisals and summaries of the literature is required.	4.4

Knowledge and Understanding Skills — 20

Feedback	Mark
To score high marks you need to demostrate systematic understanding of various technologies (your MCQ Test marks applies here - Marked for 10). The strength of statements given, and critical understanding of recent cyber-attacks, existing defense mechanisms, industry best practices & comparison of existing AI based cyber security systems, completion of all 10 modules exams in EH Course contribute to the score on this section Discussed recent cyber attacks, defense mechanisms and AI based cybersecurity systems. However, insights from wide range of available literatures, industry best practices could have added strength to the statements and demonstrated critical understanding of the concepts. Completion of EH course documented	10.1

Cognitive and Intellectual Skills — 25

Feedback	Mark
To do well in this section you need to demonstrate cognitive and intellectual skills by critically analysing and evaluating the threats, potential risks posed by AI-based cybersecurity systems, its mitigation strategies etc, Completing EH Course, Proposing similar tools, critically analysing the pros and cons of similar tools and mitigation strategies. There was also a need to answer the why , how and when , questions so as to give justification for arguments and judgements made through out the whole assignment. The analysis of threats and vulnerabilities could have been placed with strong arguments. Comprehensive analysis of potential risks posed by AI based security systems discussed. EH Course completed. More work on similar tools required. It is very difficult to analyse similar tools within a week. It needs considerable amount of time to research, implement and critically analyse the tools and its features.	19

Practical Application Skills — 40

Feedback	Mark
To excel in this part, you need to provide evidence of the practical activities done by giving appropriate screenshots on the implementation and results. A description of the new similar tool and its implementation that will convince the examiner on the work done. Evidences of lab activiites documented. However, they are not adequate. Screenshots are timestamped. As stated earlier, it requires considerable amount of time to troubleshoot any issues. New tools attempted and discussed. Could have discussed the pros and cons with details	21.8

Transferable Skills for Life and Professional Practice — 5

Feedback	Mark
To score high you need to ensure that the document is of high quality and professionally done. There should be a good flow of ideas , with evidence of proper use of the spelling and grammar tool and a complete and neat presentation of work. Marks for the structure of the document were also considered in this section. Professionally done documentation.	5
Overall Mark	60
