

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
Nice work on proving that you are able to reference and apply this to your studies this year. However, this is all about reflection about you and your studies on the programme and to give a balanced overview across the academic year	20	12
2. Knowledge and Understanding Skills		
The rubric for this piece of coursework is clear on the use of third party tools in order to become a better student i.e. identification of skills needed for this industry. Is this a case of not reading the brief properly - a missed opportunity	20	5
3. Cognitive and Intellectual Skills		
If you have carried out a personal skills audit, there is a discussion that needs to be carried out - However, it was never executed. Discussion relating to you as a student are perfectly valid	20	8
4. Practical Application Skills		
You have missed a good opportunity to deliver a presentation to the class, but as you did not participate no credit will be awarded or you could have done this in other modules. The remainder of your discussion has demonstrated how you are progressing to become a better student. Just remember, this should be about the "before" (when you started) and "now" which is a distance of 7 months - did you reflect	30	17
5. Transferable Skills for Life and Professional Practice		
There is some argument that the template developed for this module has been used - nice work indeed. Curiously enough - where is the referencing for this report ?	20	6
