

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
There were several opportunity to showcase your skills in researching/referencing in order to demonstrate how you have become a better student. Links to elements around your coursework should have been illustrated - this is all about the "before" and "after"	20	5
2. Knowledge and Understanding Skills		
There is some appetite to identify the skills needed to help produce this report and understanding the coursework brief is kind of critical, from which you can identify the skills your will need to progress -definetly a missed opportunity	20	4
3. Cognitive and Intellectual Skills		
Looking at the report generated, you do have the ability to become a better student, but lack of applied research to other elements that was expected via the assignment brief was missing - a simple case of spending more time understanding its needs.	20	7
4. Practical Application Skills		
This is all about the evidence needed to become a better student, the journey started in Sept and should be all about you and how you progressed as a student. There are some good elements documented and you were so kind in providing a presentation to the group that demonstrates you can present to a good standard - Again, missing evidence is the problem	30	17
5. Transferable Skills for Life and Professional Practice		
Nice work on the report. It is well structured and easy to read - so there is some skill here (so why was this not discussed in the body of the report)	20	7
