1. Engagement with Literature Skills		
Considering the depth of evidence needed for this coursework - you have not carried out adequate research in order to back the various discussible points made in this report. On a positive, you have embraced IEEE within the body of the report	20	6
2. Knowledge and Understanding Skills		
Although you have discussed/reviewed your learning style, there is a distinct lack of substance that demonstrate you understanding on the importance of this coursework - so did you understand how you become a better student and become ready for employment	20	6

4. Practical Application Skills		
So ask the simple question, have you become a better student and be able to prepared for a career in the computing industry - from what has been provided, it could be a simple case of no. Or did you not fully understand the requirements of the brief	30	10
5. Transferable Skills for Life and Professional Practice		
Generally, the structure of the report is fine, but its presentation needs a little work e.g., better coversheet, labelling of figures and page numbers - this feels like the layout of a L3 assignment and not L4. Be mindful, this was explained in lecturers	20	6
