PROJECT PLAN FOR CONSTRUCTING OUTDOOR BASKETBALL COURT

Overview

This project plan will be the construction of a school sized outdoor basketball court for a local community setting Silwood Estate, Silwood Street South East 16 Greater London, in the Borough of Lewisham, to use by the stakeholders/people resides in the community mainly.

The planned site is within the local community and it was an old dilapidated carwash garage abandoned for many years and now acquired by the local community themselves through the local council's permission (Lewisham council) and will be funded by them.

The existing abandoned old dilapidated building will be completely demolished to ground level and clear all robles and then ground/site will be available for fresh construction of State of the Art basketball court with modern and vibrant good looking structure.

This project will be completed within a year commencing January 2022 and ends January 2023, estimated funds for this project will be £100,000.00 (one hundred thousand pounds) which includes all variables.

The above project will be of great benefit to the local residents whereby young adults, teenagers and kids will be using product for physical activities such as practicing and playing basketball tournaments thus enabling them to exercise frequently in order to keep them physically fit in body and mind.

In addition this product can also be used to organise out door meetings during this time of covid-19 pandemic period for open air and social distancing also useful for organising fund raising activity like luncheon sale periodically.

By constructing this product it will focus particularly in bringing the youths, young adults and kids more closer in a friendly way to acquaint with one another in a vibrant atmosphere and also the sharing and discussing formal and informal ideas thus will keep them a base in their community as a whole and be more united in general.
