

GENERAL RISKS (Applies to all Activities)				Date: 29 th April 2022
Completed by: Morgan Davies			Signature: M.Davies	Review Date: 29 th April 2022
HAZARD	WHO IS AT RISK?	UNMANAGED RISK	CONTROL MEASURES	CONTROLLED RISK
Weather conditions	Students	LOW	• Check weather forecast before session • Have correct clothing for weather • Have water and sun cream or waterproofs depending on weather •	LOW
Misbehaviour	Instructors, the group and other visitors	MED	• Have rules and consequences set out before session starts to limit misbehaviour • Have time out zone for students who don't respond to verbal warnings	LOW
Poor instruction and supervision	students	MED	• Make sure you follow lesson plan and have the student's attention when explaining. (Have them repeat/engage in expiation to show they understand) • Have a helper/teacher to share the supervision out so you are keeping tabs on less students at a time	LOW
Equipment failure or breakage	students	HIGH	• Check all bikes, helmets, training wheels prior to session to make sure all in working order or fix before starting	LOW
Pre-existing injuries or health conditions	Instructors, the group and other visitors	HIGH	• Have medical screening form filled out prior to session • Have any medication and first aid kit/defib at hand or close by during session	MED
Incorrect clothing	Students	LOW	• Make sure students know what they are expected to be wearing before the session, so they arrive prepared	LOW
Slippery flooring/playground	Students	LOW	• Check surface prior to lesson to identify any hazard spots and cone them off or run session somewhere differently	LOW
Lack of skill	Students	LOW	• Training wheels to be fitted to the bikes of students who are less competent to stop accidents occurring	LOW
