Individual learning log

We worked together to complete this work. This is by keeping in contact at all times to update on the completion of the presentation.

I have mentioned who completed what part in the previous 2 pages.

Nothing much went wrong during this but contacting each other got difficult at times as not everyone be's free all the time.

It went well as everyone participated.

We did not meet often but kept in contact

We did not use Skype so therefore cannot say if it worked well or not.

We did not use Skype so therefore cannot say if it worked well or not.

We used whatsapp to contact each other, we did not come across any technical problems.

Group members were busy but they did not refuse as it was because people have jobs. We decided on time to discuss. Everyone completed their work without any problems.

We choose which slide we would like to complete based on our knowledge. We completed 3 pages each so was fair.

It was enjoyable as learned some new things from creating the presentation.
