Info
about
who I
am

When I first came in the UK

I came in the UK in September of 2018 with big dreams to study. When I first got here I wanted to study travel and tourism, I always had a passion for the sky and I wanted to become a stewardess.

I then changed my mind and saw the beauty and health care, in helping people with their needs and taking care of them as I can.

I have finished Esol Entry level 3 , level 1 and level 2 within 2 years so I can improve my spoken and written English.

What I do now in the UK

In august of 2020 I have enrolled in a dental nurse course , finished it in June of this year and right now I am working in a dental clinic with wonderful people as a dental nurse.

I still feel like I want more excitement , I want to be around more people and being able to help people with any kind of health problems would be the greatest thing I could achieve.

In June of 2021 I enrolled into higher education certificate health and social care with the university of Wales.

My life in the future

My main point right now is graduating from this course and going towards the next so I can achieve my main goal of becoming a nurse.

Thank you everybody for taking your precious time and listened to me.
