

FULL NAME:

STUDENT NUMBER:

LEARNER GROUP:

MODULE CODE: BMSK4002 Effective Team working and Communications

Individual Self-Assessment: 250 words in total.

Please use these questions to reflect upon and assess your own performance in the group.

Question 1: Explain *one* thing you learned from working in your group.

I have learnt that you're working in a group where you will bound to encounter people with a range of skills, talents that are different from yours. What's more, you can teach others and pass along your expertise to them and vice versa.

Question 2: Explain *why* do you consider it *important*?

Why I consider this to be important is when working together, the work must be designed carefully to ensure that all members of the group will participate actively. Also, the presentation must be designed in a way to promote assessment that is valid, fair and accurately reflects the knowledge and performance of all group members.

Question 3: Describe your own performance in the group. Focus on your communication with team members, your contribution to the preparation of the presentation, and your contribution during the presentation.

Overall I am pleased with the way the group work went and enjoyed researching the topic and compiling the information in what was hopefully an interesting way. I feel that preparing and delivering the presentation demonstration has developed my confidence, I will look back on it as a very positive experience.

Please identify the mark out of 05 which you would award yourself for your work in the group, with 0 being the lowest possible mark and 05 being the highest possible mark.

/5

Peer Assessment: 150 words each

Please reflect upon each individual within your group, and assess their performance. Remember to use appropriate, formal language and keep your assessment focused on the tasks within the group. Try to avoid descriptive statements (e.g. "he didn't do anything" or "she was awful") and strive instead to describing actions and their impact. What did this person do within the group? What did this person not do within the group? How effectively did this person communicate within the group? What was the impact of this person on the group?
