

Welsh Reflection

Over the last few months I believe my skills and confidence in the Welsh language have developed significantly. Although there is still a great deal of improvement to be made, I am now more confident in both speaking and understanding Welsh compared to the beginning of this PGCE course.

On reflection, the Welsh sessions taught at University have given me the tools necessary to be confident enough to apply a suitable level of Welsh in the classroom.

Although at the beginning of the term I found the Welsh sessions difficult having been placed in a class with others with a higher standard of Welsh than myself only having GCSE short course, I believe I was able to offer some valuable contributions to the sessions. The level of Welsh taught during these University lectures has been highly beneficial. The phrases taught are ones that I have used frequently during the lessons I have taught on placement. For example, reflecting back, the lecture where we were taught simple commands to use in the classroom such as how to tell the children to sit quietly and look at the whiteboard has been the most valuable. The lectures taught and booklets provided were a useful tool. These booklets were a resource that I often referred back to during my time on placement when planning my and delivering my lessons. The sessions leading up to the video assessment were useful as we learnt basic commands that could be used during our lesson and in the classroom. The micro teaching lesson that was videoed allowed me to practice and develop the use of different Welsh phrases that I would regularly use in the classroom such as “dwedwch ar fy ol i” which means repeat after me. This was a phrase that I was not using prior to this experience but is one that I can now use frequently during my own lessons.

I believe one aspect of the PGCE that has developed my Welsh significantly is the time in school on Professional Teaching Experience (PTE). Being able to observe my class teacher and other members of staff during my time on placement allowed me to see the level of Welsh that I need to be using in the classroom in order to develop learners who are confident to speak the level of Welsh that is expected in primary school. During my time on PTE I was fortunate enough to work alongside and have the support of two mentors who both spoke Welsh. My mentor in the foundation phase was the foundation phase Welsh lead and my KS2 mentor a fluent Welsh speaker. Both of my class mentors encouraged me to continually look for ways to develop my use of Welsh in the classroom and offered support and guidance how to plan and deliver lessons that incorporated a high percentage of incidental Welsh.

During my mid-term review at the end of the first block of teaching in foundation phase, my mentor gave me the target to improve my Welsh to be able to use it more frequently in my lessons and throughout the school day. I believe with the support of my class mentor in KS2 I was able to develop this target and improve my use of Welsh in the classroom. This improvement was evident in my lesson observation as both mentors who observed the lesson noted a good level of incidental Welsh being used.

Not only has my confidence in Welsh improved, I now enjoy being able to use conversational Welsh when I am able to. In my spare time, I am working to develop my Welsh using the Duolingo app. In the future, I would take the time to develop my Welsh further by attending evening classes or given the opportunity, to take a sabbatical to become a fluent Welsh speaker. Going forward I believe that if given the opportunity to have undertaken the next PTE, my level of Welsh and it's use in the classroom would have improved even further.

This was a comment in my mid-term review setting the use of Welsh as a target

Zoe would benefit from developing her own understanding of Welsh, she would also gain in confidence in its everyday use around the school if that was the case.

This is evidence from my joint observation showing how I had improved my use of incidental welsh in the classroom.

Here is evidence on how I modelled the task in Welsh and the work that was produced and marked with a further question in Welsh.

These lesson plans show how I incorporated Welsh phrases and commands into different areas of learning, including R.E and Science.

Opening phase (with links to prior learning)	1. Candle burning down video off youtube- https://www.youtube.com/watch?v=g3YmA73GBR8 stop at 0.46 2. Questioning- What do they think is going to happen when it burns out? Darkness - how would we feel? <i>Siaradwch gyda partner.</i> Use Voice 21- "I'm looking for my instigator" ... "I would like to start by saying I think that... That's an interesting idea" 3. Share the objective/ success criteria (<i>activ</i> inspire) - How does this link with what we have just watched? How does it link to Hanukkah and our learning <i>obj</i>- What do we think Hanukkah is about? 4. Introduce story of Hanukkah- Jewish festival of light: Powerpoint on Hanukkah up to slide 8 5. Chromebooks – google classroom follow the link to watch the video to find out about how Hanukkah is celebrated today: https://www.bbc.co.uk/teach/class-clips-video/religious-studies-ks2-what-is-hannukkah/zm6d7nb 6. Discuss what the video is about- feedback what they found out- Voice 21 questions – how is Hanukkah celebrated? 7. Finish the powerpoint if any important points missed out about celebration 8. Explain storyboard tasks to all groups- recap story – referring back to objective and success criteria	Pupils engage with the story of Hanukah- Siardwch gyda partner and use Voice 21 to form discussion about what they have seen Watch video about how Hanukkah is celebrated independently on chromebooks- feedback using voice 21 what they have found out from the video (<i>siaradwch gyda grwp</i>) Go through storyboard together as class – how each different group will complete the task	Ppt Videos Bbc bitesize Chromebooks Google classrooms

Opening phase (with links to prior learning)	1.Recap what do we know about the Sun and the Earth – planets, mnemonic 2. Powerpoint on day and night 3. Explaining day and night video https://www.dkfindout.com/uk/video/space/day-to-night-video/ The Earth rotates on its axis, completing a full turn every 24 hours. This rotation and the location of the Earth in the solar system means that one side of the Earth always faces the sun whilst the other faces away. Because of this, we have the Day and Night.	Engage in powerpoint and video- understanding of the rotation of the Earth and orbit around the Sun gives us day and night <i>Tradfodwch gyda phartner...</i> how to we get day and night?	Powerpoint
