Comments:

Seemed well prepared, but still a lot of 'thinking on your feet' when giving the presentation - practice more beforehand. 'feet'
only talked about using IR - were does the ultrasonic come in?

Should have presented the fault chart in a different format
- too small to read.

is the IR angle detection method going to work? no

Do some research into laser ^{Distance} measurement techniques.

Well presented & prepared.

Good lit review on autonomous vehicles, but lacking in the other areas such as sensors.
