

Dear all,

Your marks and feedback for both components of your Movement Practices assignments are ready and will be sent out later today.

You will receive your individual practical feedback written on the full assignment brief document attached to an personal email.

You will not receive a separate document for your written assignment as the information is all available to you on Moodle in Turnitin's *Gradenote*.

To access this you will need to go to: Moodle/ ADPA4011/'Assignment Briefs and Assessment Information' tile.

Then open the 'Movement Practices written work' link for Turnitin - your work and mark should be visible there.

You should open your submitted document in Turnitin. When opened, you should see a side bar on the right of your screen. If not, click the black 'Layers' button to expand the section:

In the 'Instructor Feedback Layer' you will see some **blue icons** – I have 3 on my screen. You need to access the information in:

Feedback summary: This is where you access notes about individual and generic levels of achievement. Check the '**Specific Points**' and '**Going Forward**' sections towards the bottom of the **Text Comment** section, they are unique to your work. You should also notice that apart from the text that appears in the 'text comment' plane on the right of your screen, that some notes icons appear on your written work itself. You should click on these boxes to open comments or notes that require your attention for future assessment work.

Rubric/Form: This is the rubric tile which will take you to the common University Generic Criteria and a breakdown of your individual criteria marks.

For info, this is also how you will receive all of your feedback for ADPA4001:
Learning in the Digital Era.

You should download your comments by clicking the information 'I' button:

and filling in your email address.
