Task for next week

Choose an image or short series (related) and, using the model suggested by Stephen Bull (as discussed last week - pdf. on Moodle), discuss it in relation to **words**, **context** and **discourse**.

If your essay involves the discussion of specific artists, with examples of their work, it would be a good idea to use one of them. If not, just use an appropriate image or artwork.

Bull, S (2010)
