### FINAL GRADE

### GENERAL COMMENTS

CW1: 56

CW2: 52

Overall: 54

Thanks for the submission Harley. Good effort here with this portfolio. The explanation of software proficiency is good and the art on the buttons of the portfolio are a good touch.

Body of work is generally of a good standard with compositing being the strong area of your proficiency on show. I'd liked to have seen more anatomy on show, perhaps some more line of action/figure work pieces and muscle breakdowns.

In future, avoid taking a picture of paper art work and use scanning instead. This will make your work appear more professional with minimal effort.
