I have used 5,000 most popular words to compare all my passwords

The screenshot shows a Google Sheet titled "Dictionary Attack" with a menu bar (File, Edit, View, Insert, Format, Data, Tools, Extensions, Help) and a toolbar. The sheet contains a list of passwords in column A, their status in column B, and their frequency in column C. The passwords listed are: password, worldcup2022, mohammed9412, mf34ydh987, cardiffcity22, thewinner, safehome76, leave547, samroonhy, and thrgreat94. The status is listed in column B, and the frequency is listed in column C. The sheet is currently displaying the first 23 rows of data.

A	B	C
password		
worldcup2022	✓	
mohammed9412	✓	
mf34ydh987	✓	
cardiffcity22	✓	
thewinner	✓	
safehome76	✓	
leave547	✓	
samroonhy	✓	
thrgreat94	✓	

I have compared all this passwords and did not match with any of the 5,000 words
