My Short Reflection

I m a person very passionate about technology.

I use digital tools to communicate with others, shop online save my time in the stores , to solve everyday problems faster .

I feel confident when I use technology and I understand and solve problems by myself.

I want to improve how I use my digital tools so I can be more confident and independent online .

Sometimes I feel nervous about when I use new technology

This module will help me to find information faster and get better opportunities in school and work .

Digital skills are important for me in school and in my future career
