

Children Nursing – Pediatric

My chosen role is Children Nursing – a pediatric nurse that provides health care and support for young people. A children's nurse also supports the family's education about their child's health.

I chose this role because i like making positive differences in children's lives. I am also interested in health care careers that combine medical knowledge with caring for others. Nursing deserves great appreciation for helping patients in need (e.g children and newborns requiring medical attention, disability, and

chronicle illness) and supporting families during tough times.

HOW I STARTED MY RESEARCH

My research, I used websites and online resources to learn about pediatric nurses. These are examples of nursing children: (NHS) (health careers) websites.

How I found the website

I used to google to find reliable and trustworthy websites about Pediatric Nurses and Nursing Children.

Keywords I used

- Skills required to be paediatric
- Paediatric nursing education and training

- Nursing children in hospital

To improve my search results, I used quotation marks around phrases such as “paediatric nurse” to find exact answers and I also used Boolean operators **AND** and **OR** to refine my search. The main websites I used is NHS careers and Health careers.

Next steps

In the future I will use more advanced search techniques such as filters and Boolean operators to find more reliable sources.

CRAAP Test Evaluation of One Source

NHS Health Careers – children's Nurse

- **Currency**

The information reflects current healthcare career requirements.

- **Relevance**

This source is related to my chosen career and provides plenty of information about qualifications and responsibilities.

- **Authority**

The NHS is a trusted healthcare organization and making it a reliable source of information.

- **Accuracy**

The information is clear and consistent with other sources I reviewed.

- **Purpose**

The purpose of this website is to provide reliable information about NHS.

Conclusion

The NHS is a highly trusted and reliable source for searching Children's Nursing. Based on my evaluation of its accuracy and relevance I will use information from

NHS website to support my Task 3 report.

Challenges I faced during research

- To overcome these challenges, I compared information from several sources and focused on reliable websites such as the NHS to ensure the information was exact and relevant to Children's Nursing.
- There are many different nursing specialties, and it took me time to focus on chosen sources.

My next step

- Investigate education and training requirements in more detail.
- Create a report plan and organize my findings into sections.
- Continue researching daily responsibilities of pediatric nursing.
- I will research the education and training requirements for Children's Nursing by using the sources such as NHS website and Nursing Career resources and I can

also look at requirements;
qualifications and the skills needed
for this role.

Children's Nursing Conclusion

Children's Nursing is a valuable career and helps to improve the health and wellbeing of children. My research helped me understand the skills, qualifications and responsibilities needed for this role.
