INTRODUCTION

This presentation content the reflection of Academic and Employability Skills in my future career. After completing this course, I am planning to continue my studies and get a better job.

- ▶ After graduation, I am planning to apply for a Midwifery course, and while doing so, I hope to accumulate enough experience and knowledge about the field of midwifery so that when I graduate, I will be able to apply what I've learned in the workplace.
- ▶ In addition, after completing this course, I am hoping to get a better job in the industry, as I am confident that I will be able to gain sufficient experience and skills, such as:
 - Working in a team
 - Communication skills
 - Computing skills

MIDWIFERY

For me, becoming a midwife means being able to work with a woman, in the sense of working alongside her, to ensure that the care I offer meets her individual needs, to offer support for her family and baby in the early weeks of family life.

ESSENTIAL ELEMENTS IN MIDWIFERY

In the book *The New Midwifery*, Lesley Ann Page and Rona Mc Candlish describe some essential elements of midwifery, as:

- Working in a positive relationship with women and their families
- Being aware of the significance of pregnancy and birth and the early weeks of life as the start of human life and the new family
- Avoiding harm by using the best information or evidence in practice
- Having adequate skills to deliver effective care and support
- Promoting health and wellbeing

JOB DESCRIPTION - MIDWIFERY

- In the Midwifery job description I discovered that it required some responsibilities:

NURSING AND MIDWIFERY COUNCIL

LONDON UNIVERSITIES – NURSING AND MIDWIFERY

2021	Institution	Guardian score/100
14	Kingston – St George`s University	69.9
20	Middlesex	66.7
26	Greenwich	58.9
46	West London	52.8
49	King`s College London	51.9
55	London South Bank	48.5
57	City	47.4

CONCLUSION

During my studies, I will learn how to deliver care and support for women and their babies. After finishing this course, I will gain an overview of:

- ✓ Monitor and examine women during pregnancy
- ✓ Review individual care programmes include full antenatal care, screening tests
- ✓ Identify high risk pregnancies and make referrals to doctors and other medical specialists
