

Smart Manufacturing with Industry 4.0

Increase efficiency, maximise productivity, future-proof your business with UWTSD

Streamed live from the robotics lab, University of Wales Trinity Saint David can offer you **fully funded** support via two of their projects.

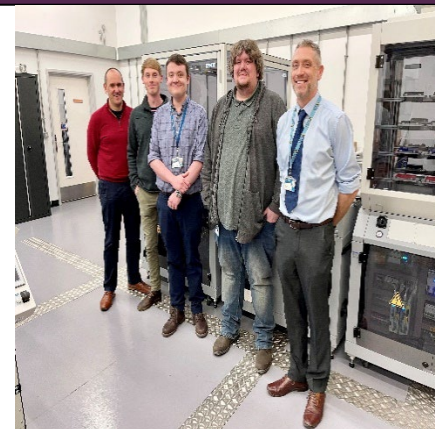

This presentation will introduce:

1. MADE Cymru (ESF funded)

- **Choice of two Upskilling for Industry 4.0 short courses** (modules include Lean Thinking, Value Stream Mapping, Industrial Internet of Things, Smart Manufacturing, The Role of Data, Six Sigma DMAIC Process, Process Flow & more)
- **Business Improvement with Innovation Management short course** (modules include Managing Uncertainty & Risk, Business Drivers, Technology Drivers, Measuring Innovation, Brand & Product Strategy, Product Development, Circular Economy & more)

2. SMART Digital Accelerator (Welsh Government funded)

- Brand new project, supporting manufacturers in adopting new technology (and the right technology) via a team of experts from academia, industry, and technology providers.

UWTSD presenters:

Graham Howe, Richard Morgan, Ryan Cording, Simon Thomas, Jordan Jenkins
