

STAGES OF TEAM DEVELOPMENT

Care Home
Effective teamwork
and
communication
develops.

The productivity
and better
services to the
patients in this
care home.

Forming Stage

Forming is early stage ,creating a team with clean structure ,goals, direction ,roles team member begin build the care home.

Forming is the first orientation period of the team development.

Where the team member excited to do with the positive team expectation and experience.

Though working in the team of care home.

Storming stage

Group member start to working and communication. their feeling control by group leaders.

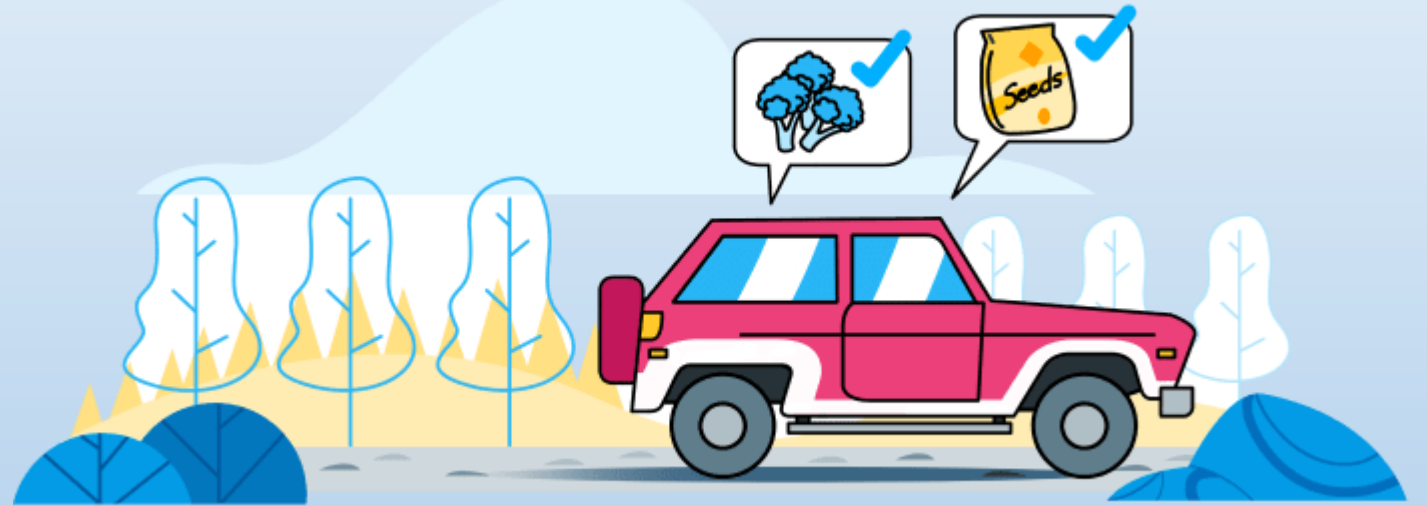

describe the tasks to the group, describe the different behaviours to the group and how to deal and handle complaints.

Norming stage

People feeling part of the team and realize that they can achieve work. If they accept other viewpoint.

The member of care home team shift their energy to team goal.

performing

In this stage team members feel better confident through expressing their abilities. members solve the problems and assists another member.

Differences among the members are encourage and appreciated for greater success. Team members are committed and focused to get the success through sharing their knowledge and skills.

Adjourning stage

In this stage, team member may feel a sense of sadness and losses during the working time in care home. Here team Member feel a deep satisfaction accomplishment of the activity.

Members think about the future role and individual's' responsibility in care home.

member focus to team task though measuring the productivity thus analysing the effectiveness increase the performances.

This in the ending stages where the team leader the evaluates the productivity of care home.
