# PERSONAL SWOT ANALYSIS

NAME- MEHNAZ BIBI

STUDENT NUMBER- 2212095

MODULE CODE- LCHS4009BIRM

LECTURER NAME- HAJRA

ASSIGNMENT TITLE- PERSONAL  
SWOT ANALYSIS

## **PROFESSIONAL/EDUCATIONAL DEVELOPMENT**

- Throughout my life I have attended primary and secondary school. During secondary school, I completed my GCSEs and passed them, I also did a level 2 GNVQ and passed it. I passed my driving test and I also passed a basic first aid course. I passed a food hygiene and preparation course.

## MY STRENGTHS AND WEAKNESSES

- The strengths I believe I have are: being patient, hardworking, understanding, and kind. I am quite competitive, and I am good at tackling difficult situations, I also have great people skills and I can easily get along with someone. Another strength is I am bilingual, I can speak English, Urdu, Potwari, and Punjabi all fluently.
- I believe my weaknesses are I am quite committed to my family, I maintain the household chores, cooking, cleaning, ironing, washing, getting the shopping in, etc. I have fewer qualifications compared to others, and I feel I can be criticized due to the fact I do not exceed all expectations other employees may expect me to do.

## OPPORTUNITIES AND THREATS

- With the course I am studying now could expand my opportunities into a nursing career, becoming a care worker, pharmacist, social worker, paramedic, midwife, occupational therapist, counselor, etc.
- I feel quite threatened about not getting the job I want or getting a job that pays lower due to the fact I have less qualifications.

## 2 PERSONAL DEVELOPMENT PLAN

| TARGET                                        | HOW WILL I ACHIEVE THIS?                                                                | WHY WILL THIS TARGET BENEFIT ME?                                                                                | WHAT WILL CHANGE WHEN I ACHIEVE THIS?                                                                                                                                                                                   | WHEN DO I WANT TO MEET THIS TARGET BY? |
|-----------------------------------------------|-----------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------|
| I have a target to improve my qualifications. | I plan on achieving this by completing a level 4 and 5 health and social qualification. | This target will benefit me as I will be able to get a better job, have better pay, and improve my life skills. | I will have a lifestyle change as by having better qualifications I would be able to get a better job which would give better pay, I would then be able to afford better luxuries and I can spoil myself and my family. | I plan to meet this target by 2024.    |

## REFERENCE PAGE

- If I was interested in becoming a paramedic, I would have to <sup>1</sup>“first need to successfully complete an approved degree in paramedic science or with an apprenticeship degree. I would then need to apply to an ambulance service as a qualified paramedic and register with the Health and Care Professions Council (HCPC).”  
(<https://www.healthcareers.nhs.uk/explore-roles/allied-health-professionals/roles-allied-health-professions/roles-allied-health-professions/paramedic>)-
- If I was interested in becoming a nurse, i would take <sup>3</sup>“The most common route into nursing is by completing a nursing degree though there are other routes available, including nursing apprenticeship degrees and nursing associate roles.”
