Summer School: ● *Green Innovation*

You will address all topics related to sustainable development such as the fundamentals of innovation, the eco-design approach, and even technologies in the service of ecology and decarbonisation.

Common thread projects:

- Fundamentals of innovation
- Eco-design approach
- Marketing strategies
- Technological innovation for ecological transitions

When: from July 2026

Where: CESI campus in Paris-Nanterre

Summer School: ● *Smart Health Care & Ai*

You will be taking part in the new challenges of the hospital of tomorrow thanks to innovative solutions and the latest healthcare innovations and technologies based on immersive technologies, AI, robotics and IoT.

Common thread projects:

- Ethics, cyber security and inclusion in smart health care
- Robotics in health care
- Basics of Machine Learning for healthcare
- Visit Caen city: Mont-Saint-Michel UNESCO, WWII Memorial of Caen...

When: July, 2026

Where: CESI campus in Caen

Summer School: ● *Bim For Sustainable Construction*

This engineering-linked theme immerses the student in the heart of sustainable construction challenges in a smart city by addressing essential subjects such as BIM, eco-neighbourhoods and decarbonisation, in connection with sustainable development.

- BIM for sustainable construction Project
- Fablab 3D, AR/VR
- Practical work at the wastewater treatment plant (Impacts of climate change on urban water management)
- Diving into Parisian architecture

When: from 2026

Where: CESI campus in Paris-Nanterre

Summer School: ● *Smart Innovation*

Whether you are a young student, researcher or even an engineer, you will come into contact with AI as part of your job. Learn how to master and understand the potential of this new tool to bring innovation to your projects.

Common thread projects:

- Introduction to AI and innovation
- Concept ideation and generation
- Discovering key tools and technologies to innovate
- AI in scientific research Collaborative innovation
- Visit to Strasbourg, European capital (cultural and technical visits)

When: from July 2026

Where: CESI campus in Strasbourg

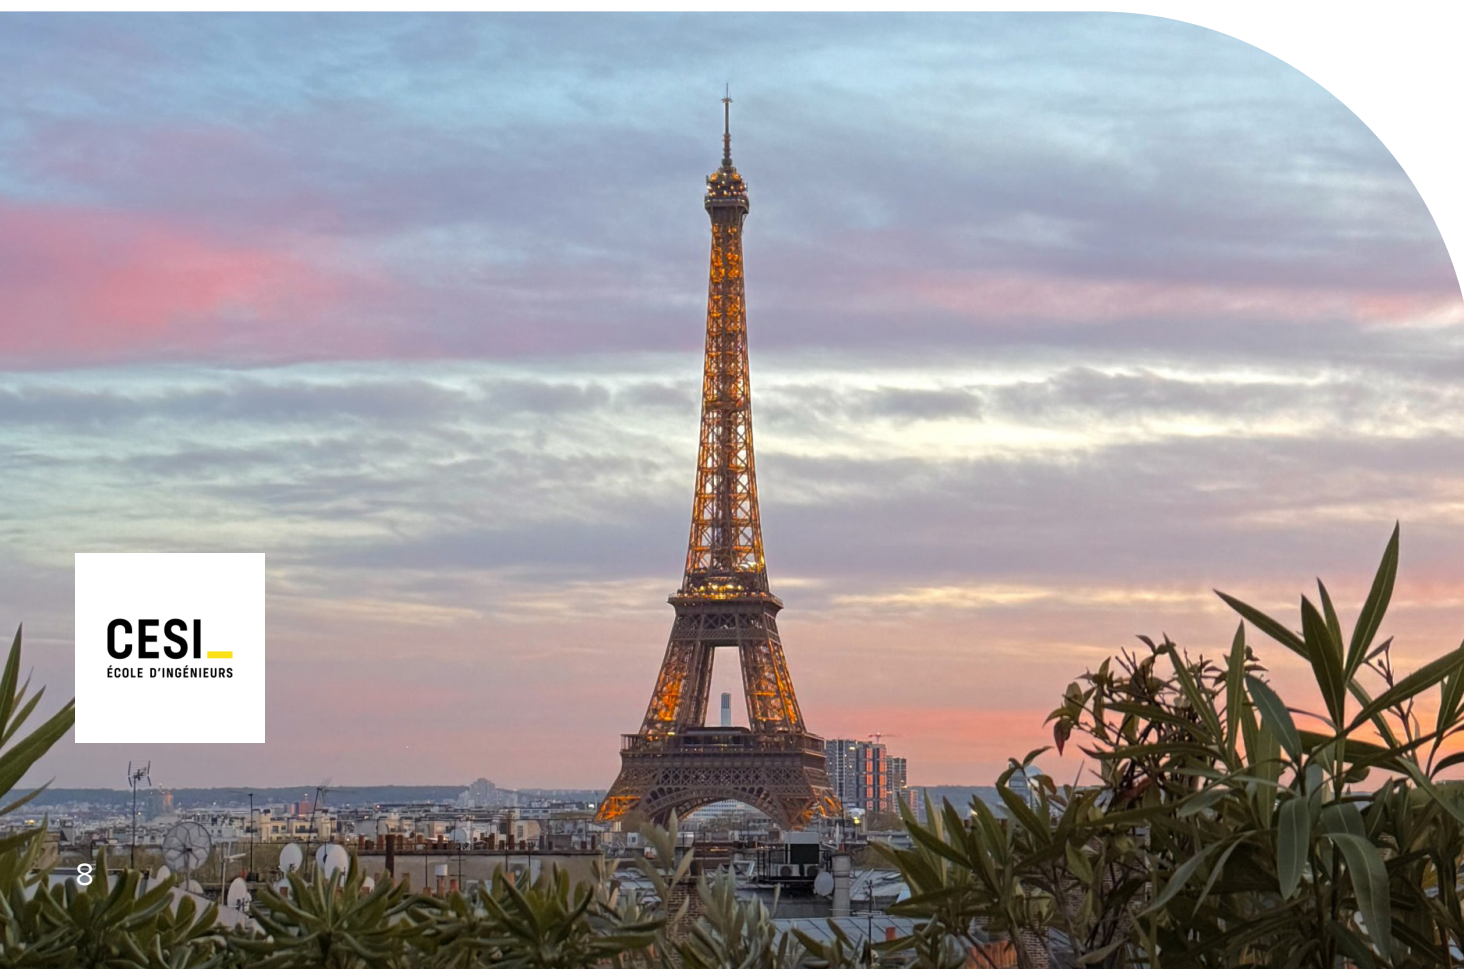

Summer School: ● *Generative Artificial Intelligence*

You will discover new approaches and technologies in generative AI and its industrial applications thanks to practical work taught by recognized experts in their field.

- Explainable and Interpretable AI models
- Responsible AI and Equity
- Prompt Engineering and Generative AI models
- Diving into Nice City

When: 2026

Where: CESI campus in Nice

University of Wales
Trinity Saint David
