INTRODUCTION

This handbook provides you with detailed information about your course, or Programme of Study, and about the modules that will be offered for study in the academic year 2022/23.

The University has made every effort to make the information as full and as accurate as possible, but you should note that minor changes in the organisation of modules between the planning stage and the actual teaching are inevitable. We shall try to keep any such changes to a minimum, and you will receive plenty of advance warning in the event of any alteration. We would also be grateful if you would let us know about any changes that you think might be helpful if introduced into future handbooks.

FEEDBACK AND STUDENT ENGAGEMENT

Feedback on your programme of study and modules is welcome and important and will help us to improve and enhance your learning experience. You can give feedback in a number of ways, including: through the academic representative for your programme of study, through module evaluation questionnaires, or through informal meetings with your teaching staff. If there are issues, then it is important that you share these with us so that we can address them. Your opinion is valued.

The University works to engage all students individually and collectively in the assurance and enhancement of their educational experience. The University has a strong commitment to students as partners in their educational experience.

It is recognised that student engagement, representation, feedback and support at collaborative partner institutions may take a different format to that at the University. For example, not all collaborative partner institutions have a Students' Union. However, all collaborative partner institutions are expected to:

- Value student engagement and the student voice
- Have a comparable set of systems and procedures in place which reflect the requirements of the specific delivery location
- Meet the University's principles of student engagement, representation and support
- Meet the expectations of the UK Quality Code for Higher Education
- Clearly articulate to students any variations to the principles
- Have good communication mechanisms in place to let students know what has been done in response to feedback.

WELCOME MESSAGE

Welcome to the University of Wales Trinity St. David Doctor of Business Administration programme. The purpose of this handbook is to tell you something about the programme on which you are enrolled. It provides you with a written record of the programme philosophy, structure and content, as well as key procedures and rules which the programme team have developed to facilitate the success of you and your fellow students.

THE AWARDING UNIVERSITY & THE VALIDATED TEACHING CENTRE

The University of Wales Trinity Saint David - The Awarding Institution

The University of Wales Trinity Saint David (UWTSD) was formed on 18 November 2010 through the merger of the University of Wales Lampeter and Trinity University College Carmarthen, under Lampeter's Royal Charter of 1828. On 1 August 2013, Swansea Metropolitan University became part of UWTSD.

The University's Royal Charter is the oldest in Wales and England after the universities of Oxford and Cambridge. In 2011 the King Charles III became its Royal Patron. UWTSD delivers clear, tangible benefits for learners, employers, industry and communities by offering a vocational approach from entry level to post-doctoral research. UWTSD has a clear and exciting strategic plan which places emphasis on applied learning, strong academic disciplines and a clear commitment to innovation, enterprise and knowledge transfer. This connected university is driving through structural and strategic change which is closely associated with industry, business and enterprise. The University has a clear national profile – delivering for Wales and celebrating its distinctiveness on a UK and international stage.

The aim of UWTSD is to inspire individuals and develop reflective graduates and practitioners who can make a difference in society. Through work-based learning, research of international excellence and knowledge transfer networks, UWTSD aims to play a pivotal role in the promotion of social justice, economic renewal and the development of social and cultural capital.

Website: <https://www.uwtsd.ac.uk>

The Hong Kong Management Association (HKMA) - The Validated Teaching Centre

The Hong Kong Management Association (HKMA) has been approved by UWTSD as one of its validated institutions, and is empowered to offer courses in Hong Kong with standard and qualification equivalent to those offered in the United Kingdom.

Established in 1960, HKMA is a non-profit-making professional organisation dedicated to providing Hong Kong with the management training and skills it needs to succeed.

As one of the largest providers of management training and education in Hong Kong, it offers annually over 2,000 programmes at all levels to more than 50,000 participants. Each year, more than 1,000 local, Mainland China and overseas organisations sponsor their staff to the training programmes offered by the HKMA. The Association also has close ties with a number of overseas universities from Australia, the UK, the USA, Switzerland and the Mainland China in offering offshore programmes in Hong Kong.

Website: <https://www.hkma.org.hk>

CURRENT MEMBERS OF STAFF

The following members of staff will be teaching on your Programme of Study:

Names and Contact Details

Contact	Telephone No	Email Address
<u>Programme Administration</u>		
Ms Francine Ngai	2774 8561	uwdba@hkma.org.hk
Ms Lottie Fung	2774 8568	uwdba@hkma.org.hk
<u>Programme Coordination</u>		
Ms Jenny Pong		uwtsddba@hkma.org.hk
Ms Polly Chan	2774 8537	uwtsddba@hkma.org.hk
<u>Lecturers</u>		
Dr Andrew Chan		
Prof Peter Fong		
Dr Leo Ho	N/A	uwtsddba@hkma.org.hk
Dr Chammy Lau		
Dr Tamara Savelyeva		
Dr Eddie Yu		

EXTERNAL EXAMINERS

All taught Programmes of Study which lead to a Higher Education award of the University have at least one External Examiner. The principal purposes of the University's external examiner system are to ensure that:

- the standard of each award is maintained at the appropriate level;
- the standards of student performance are comparable with standards on similar programmes or subjects in other UK institutions with which they are familiar;
- the processes for assessment and the determination of awards are sound and fairly conducted.

Students may request a copy of the previous year's External Examiner's Report for their programme of study by contacting the Programme Manager. The current External Examiner for the DBA is Mr Matthew Salter from UWE Bristol.

Please note that students are not permitted to make direct contact with the External Examiners without permission and to do so may be considered a disciplinary offence.

ACADEMIC YEAR

The academic year for your programme will be divided up as follows:

Part One	
Semester 1	HKBM7002 Managing in Complex Environments: Strategies, Insights and Solutions
Jan - Apr 2023	HKBM7016 Strategic Change and Organisations
Exam Board – June 2023	
Semester 2	HKBM7006 Visions for the Future – Theoretical Perspectives on Management
June - Aug 2023	HKBM7000 Approaches to Research and Academic Communication
Exam Board – October 2023	
Semester 3	HKBM7003 Qualitative Research Methods
Sep - Nov 2023	HKBM7004 Quantitative Research Methods
Exam Board – December 2023	
Part Two	
Semester 4	HKBM8000 Research Dissertation

It is vitally important that the UWTSD DBA Local Secretariat has an accurate record of your personal details at all times. It is equally important to ensure that you are enrolled on the correct Programme of Study and on the correct modules and that you read and agree to the Partner Enrolment Agreement. Each academic year, you will need to enrol as a student **and** you will need to enrol on the modules that you will be studying during the academic year. Failure to enrol properly or to inform the UWTSD DBA Local Secretariat of any changes to your personal details is likely to cause some or all of the following problems:

- failure to keep you generally informed;
- not being able to borrow materials from the Library and Learning Resources;
- not being able to use the Information Technology services;
- failure to contact you in an emergency;
- delay in progressing from Part I to Part II where applicable;
- delay in graduation as a result of not completing sufficient credits at the correct level;
- general inefficiencies in administrative processes resulting in delays for other students.

MODULAR TERMINOLOGY

Programme of Study (Course)

A Programme of Study is the collection of modules leading to a particular award.

Module

A module is an academically coherent unit of learning activity with defined aims/learning outcomes, content and assessment scheme.

Module Credit Rating

Every module has a credit rating. Credit is an award made to a learner in recognition of the verified achievement of designated learning outcomes at a specified level.

Level of Study

A level is assigned to each module to define the standard of its academic demand. Study at Master's level is called Level 7 in the National Qualifications Framework. The basic characteristics of the relevant levels of study are outlined by the Welsh Assembly government and available on their website:

<https://gov.wales/sites/default/files/publications/2018-02/level-descriptors.pdf>

Students should note that the expectations and demands of work at Level 7 is higher than those at undergraduate Levels 4-6, and that this will be reflected in the assessment and marking of the module assessments.

ASSESSMENT

At the start of each module, tutors will provide full details of the means by which you will be assessed in that module. This will include a full assessment brief and guidelines on the criteria that will be used for marking your work as well as clear information about when the assessments are due and the turn-around feedback time for the assessments. It will also detail how you will be able to discuss the feedback on your work and your performance and what to do if you have any questions.

All assessed written coursework needs to be submitted in electronic copy via Turnitin; alternative instructions will be provided by the Course Leader for any forms of coursework that cannot be submitted via Turnitin.

You will receive confirmation of your assessment marks at the end of each year via [MyTSD \(https://mytsd.uwtsd.ac.uk/\)](https://mytsd.uwtsd.ac.uk/). Any marks released prior to formal approval by the Progression / Award Examining Board are provisional.

Extenuating Circumstances

If you believe that there are extenuating circumstances which may have adversely affected your ability to complete coursework or examinations, you should follow the University's procedures for Extenuating Circumstances for Taught Provision, which can be found on the Academic Office section on the University's website and forms part of the *Mitigating Circumstances Policy*:

<https://www.uwtsd.ac.uk/academic-office/procedures-for-academic-appeals-complaints-and-other-student-cases/>

Additional needs in terms of assessment

If you have any additional needs in terms of assessment, it is your responsibility to liaise with the Course Leader regarding those needs at the start of the academic year, so that a Statement of Compensatory Measures can be drafted in line with the University's procedures for assessment of students with additional needs.

Academic Appeals

Information about how to appeal is provided in the 'Academic Appeal Procedure' which forms part of the *Academic Appeal Policy* associated with Chapter 12 of the *Academic Quality Handbook*, and in supporting documentation published on the Academic Office section on the University's website:

<https://www.uwtsd.ac.uk/academic-office/procedures-for-academic-appeals-complaints-and-other-student-cases/>

Additional advice is available from the Students' Union. It is very important that you note carefully the grounds on which appeals may be made and submit your appeal on the appropriate form because incomplete or ineligible appeals cannot be processed.

Assessment Regulations

The rules and regulations that govern the assessment of your Programme of Study are available in Chapters 6 and 7 of the University's *Academic Quality Handbook*, a copy of which is available on the Academic Office section of the website:

<https://www.uwtsd.ac.uk/academic-office/>

Responsibilities of students in relation to the assessment process

You are responsible for ensuring that:

- i) You are correctly enrolled on your programme of study (including re-enrolment for each academic year after initial enrolment).
- ii) You read and understand the information provided about how you will be assessed, how your final award will be determined, and the action to take in the event that you experience difficulties relating to assessment.
- iii) You attempt every assessment component of a module.
- iv) You attend examinations and other assessment events, including re-examination and re-assessment events, as required; and that you are available to attend oral examinations if required to do so within the published dates of terms or semesters, or other date notified to you in advance.
- v) You submit work for assessment as required and in accordance with the required format and deadline.
- vi) You inform your Course Leader or Programme Director of any disability or long-term impairment which might require special provisions for assessment.
- vii) You familiarise yourself with the University's definition of academic misconduct and undertake assessments in a manner that does not attempt to gain unfair advantage.
- viii) You follow the prescribed procedures in the event that you experience extenuating circumstances or wish to appeal against the decision of an Examining Board.
- ix) You keep a copy of work presented for assessment wherever feasible.

- x) You make your work available for sampling for external examining purposes.

VIRTUAL LEARNING ENVIRONMENT (VLE)

Your Programme of Study will be supported by access to a Virtual Learning Environment (Moodle) (<https://moodle.uwtsd.ac.uk>). In addition, you will have the online and offline information resources at HKMA and the online resources at UWTSD (depending on licensing arrangements). Further details will be available on Page 19 of this handbook.

PROGRAMME OF STUDY – Doctor of Business Administration

Programme Overview

University of Wales Trinity Saint David Regulations require that Professional Doctorate programmes consist of 540 credits, with 180 credits at Level 7 (Master's level) and 360 credits at Level 8 (Doctoral level). Students will be examined in two parts. Part One will comprise 180 credits of taught modules. Part Two will be research focused and will be completed by the presentation of a thesis and any portfolio of supporting material embodying the methods and results of the research. Please refer to **Appendix I** for the module specifications.

Programme Learning Outcomes

On completing this programme a learner at Level 7 and Level 8 would achieve the following outcomes:

Knowledge and Understanding (KU)

Successful candidates of the programme will be able to demonstrate:

KU1	The creation and interpretation of new knowledge, through original research or other advanced scholarship, of a quality to satisfy peer review, to extend the forefront of the business and management discipline, and merit publication.
KU2	A systematic acquisition and understanding of a substantial body of knowledge which is at the forefront of the business and management discipline or area of professional practice
KU3	A detailed understanding of applicable techniques for research and advanced academic enquiry.

Cognitive Skills (CS)

Successful candidates of the programme will be able to demonstrate a range of cognitive and intellectual skills together with techniques specific to business and management. Successful candidates will be able to:

CS1	Conceptualise, design and implement a project for the generation of new knowledge, applications or understanding at the forefront of the business and management discipline, and to adjust the project design in the light of unforeseen problems
-----	---

CS2	Continue to undertake applied research and development at an advanced level, contributing substantially to the development of new techniques, ideas or approaches
-----	---

Practical Skills (PS)

Successful candidates of the programme will be able to:

PS1	Make informed judgements on complex issues in specialist fields of business and management, often in the absence of complete data, and be able to communicate their ideas and conclusions clearly and effectively to specialist and non-specialist audiences.
PS2	Create, interpret, construct and/ or elucidate knowledge, which extends the forefront of the business and management discipline, usually through original research.

Key Skills (KS)

Graduates will be able to demonstrate a range of qualities and transferable skills necessary for employment. These include:

KS1	An innovative approach to tackling and solving problems.
KS2	The development of an individual's professional practice to support them in producing a contribution to professional knowledge.

PROGRAMME STRUCTURE

The table below shows the current composition of the programme:

PART ONE LEVEL 7

Semester 1

Module Code	Title	Module Type	Credits
HKBM7002	Managing in Complex Environments: Strategies, Insights and Solutions	Business & Core	30
HKBM7016	Strategic Change and Organisations	Business & Core	30

Semester 2

Module Code	Title	Module Type	Credits
HKBM7006	Visions for the Future – Theoretical Perspectives on Management	Business & Core	30
HKBM7000	Approaches to Research and Academic Communication	Research & Core	30

Semester 3

Module Code	Title	Module Type	Credits
HKBM7003	Qualitative Research Methods	Research & Core	30
HKBM7004	Quantitative Research Methods	Research & Core	30

PART TWO LEVEL 8

Semester 4 up to the end of maximum study period

Module Code	Title	Module type	Credits
HKBM8000	Research Dissertation	Research & Core	360

Remarks:

The Local Secretariat reserves the right to make changes to the delivery sequence of the above modules with notification.

ASSESSMENT OF PART I (TAUGHT MODULES)

Each module will be assessed independently in ways which reflect the objectives and learning outcomes of the module and the programme of study as a whole and the learning and teaching strategies employed within the module.

Details of assignments, guidance on the objectives of the assessment and criteria applied in marking will be provided at the beginning of each module.

Full information about the classification of results and regulations for progression can be found in Chapter 6 of the *Academic Quality Handbook*.

All work in Part I will normally be marked within the University's agreed 20 clear term-time working days turn-around time for assessed coursework. You will be contacted by the module co-ordinator if this is not possible.

Standard Format for Coursework

All coursework must be typed or word-processed. The Assignment Cover Sheet (**Appendix III**) must be attached to the assignment and submitted via Turnitin before the submission deadline. Students may convert the Word file or PowerPoint file into PDF format to avoid displacement of content. The following guidelines for the format and layout of assignments must be strictly followed by all students:

- One-and-a-half spacing should be used with a 2 cm margin all around.
- Characters employed in the main text (but not necessarily in illustrations, maps etc.) should be 12 pt.
- Characters employed in all other texts, notes, footnotes etc. shall not be less than 10 pt.
- Typing should be of even quality with clear black characters, and capable of photographic reproduction.
- Harvard referencing must be used.

Submission of Coursework

All assessed written coursework needs to be submitted in electronic copy via Turnitin (for plagiarism checking) before the submission deadline. Alternative instructions will be provided by the module tutor for any forms of coursework that cannot be submitted via Turnitin.

Students need to take care to acknowledge all sources used and to reference correctly. You can submit draft version of your work to Turnitin before the submission deadline for plagiarism checking. Students should check the similarity report and make amendment on their coursework before the submission deadline, if necessary. As the generation of Turnitin Report takes time, students are strongly advised to submit their final version of coursework at least one day before the submission deadline.

Late submission penalties will be applied to work that is not submitted by the published deadline. Work which is submitted up to one week late it will be capped at the pass mark 50% for first attempts; 0% for re-assessment. Work will not be accepted more than one week after the submission deadline and must be recorded as a non-submission.

Release of Results

The confirmed module results will be available on the student portal after the Progression / Award Examining Boards at which the particular module(s) have been discussed. Any marks released prior to formal approval by the Progression / Award Examining Board are provisional.

Pass Mark & Progression

The pass mark for each taught module at Level 7 is 50%. A student cannot pass a module without attempting every component of the assessment associated with the module. Students are ONLY allowed to proceed to Part Two of the programme once they have successfully completed all taught modules and have met all financial obligations.

Re-assessment / Re-sit

Reassessment is not an automatic entitlement. Decisions concerning the redemption of failed assessment components will be taken in Progression / Award Examining Boards. Students will not be offered redemption opportunities for failed modules until they have completed Part One of the programme. The re-assessment fee is HK\$1,500 per assessment.

The maximum number of re-assessment attempts that can be allowed for a particular module will be one. Students who fail to complete a module which has been re-assessed will be required to withdraw from the programme. The maximum mark awarded for re-assessed components or modules is 50%.

ADMINISTRATIVE MATTERS**Programme Fee**

The total programme fee is to be paid in accordance with the payment schedule released to students before the commencement of the first semester. Students who do not comply with the payment schedule will not be allowed to continue with the programme.

Application for Credit Exemption / Recognition of Prior Certified Learning (RPCL)

Exemptions will be made on the basis of mapping previously obtained qualifications against the learning outcomes of the Level 7 modules. Given the importance of research for the doctorate, it is anticipated that most students are unlikely to be exempted from the research modules unless they have studied significant credits of research methods as part of their Masters/Doctoral provision. The maximum number of credits that can be exempted is 120 credits. Students cannot 'pick and choose' to be exempted from parts of modules or assessments. RPCL is applied to entire modules. No exemptions from Part Two of the programme will be allowed.

Students who wish to apply for RPL must complete the form

(https://www.uwtsd.ac.uk/media/uwtsd-website/content-assets/documents/academic-office/aqh-appendices/pl/PL3d_RPCL-Application-Form-for-Collaborative-Partnership-Students-09-2021.docx)

together with relevant supporting documents (e.g. transcript, detailed syllabus, assessment requirements and contact hours of the previously studied courses etc.) and submit to the UWTSD DBA Local Secretariat at least one month before the commencement of the programme. **Application for RPCL submitted after the programme commencement will not be considered.** The granting of RPCL is at the sole discretion of the University.

Students are required to pay a non-refundable exemption processing fee of HK\$500 per module when submitting the application for RPCL. The exemption fee is HK\$19,500 per module, which is payable upon successful application for exemption. Students will be notified of their results by email.

Normal Period of Supervised Study / Minimum Submission Date

Normal Period of Supervised Study is 3 years from registration. A student is expected to submit a thesis by the end of this period. If more time is needed, a student could file Extension Request with additional extension fee (subject to approval).

Extension Fee for Exceeding the Normal Period of Supervised Study / Minimum Submission Date

HK\$6,800 for a 3-month extension.

Maximum Submission Date

Maximum Submission Date for thesis is 4 years from registration. After which a student will be deemed to have run out of time and will not be permitted to submit a thesis.

A student could file PG17 - Extension to Candidature request to the University. However, the request has to be related to specific grounds and approval is not guaranteed. A student will be terminated if the extension request is not approved.

The grounds for the application for extension:

- Health or medical;
- Maternity, paternity or adoption leave;
- Compassionate (including bereavement and serious domestic difficulties);
- Financial;
- Exceptional professional commitments;
- Opportunities which contribute to academic development;
- Exceptional circumstances outside the control of the student that seriously compromise the student's ability to continue with studies.

Please note that applications based on work commitments or busy schedule are unlikely to be approved.

Extension Fee for Exceeding the Maximum Submission Date

If the request of PG17 - Extension to Candidature is approved by the University, the extension fee will be:

- HK\$2,500 for a 1-month extension
- HK\$6,800 for a 3-month extension
- HK\$13,600 for a 6-month extension
- HK\$27,200 for a 12-month extension

Extension Fee for Thesis Amendment after Oral Exam:

Students are not required to pay extension fee for up to 6 months after Oral Exam for the purpose of thesis amendment. However, if more time is required after 6 months, the extension fee is HK\$6,800 for a 3-month extension.

Minimum/Maximum Submission Dates Due to Delay in Programme Commencement

Due to circumstances such as lecturers' availability, public/religious holidays or other administrative arrangement requirements, class commencement of the Hong Kong programme may be delayed from time to time. Please note that the University views these issues about class timings as part of the normal practices for any programmes in any locations. This is accepted as a normal part of the time line and changes to minimum/maximum submission dates would not be made for this type of delay.

Attendance

Students are strongly encouraged to attend all sessions. Attendance records will be kept by HKMA and students are required to sign on the attendance sheet for each lecture. Although sessions are not mandatory, **if a student's attendance rate is low, re-assessment opportunities may not be granted by the Examination Board for failed modules.** Poor attendance is defined as having attended less than 70% of sessions.

Extenuating Circumstances

A student who believes that his/her performance in or ability to complete an assessment has been adversely affected by extenuating circumstances may request that those circumstances are recognised by the University. Claims for extenuating circumstances are judged on clear and transparent criteria as set out in the regulations and are considered by a cross-University Extenuating Circumstances Panel.

Extenuating circumstances refer to significant ill health during the assessment period, bereavement of a close relative or friend during the assessment period, or other similarly profound experience or difficulty that is outside the control of the student. For fulltime students, pressure in work is normally not considered as an extenuating circumstance. Loss of work due to the breakdown of electronic equipment or theft is also usually not accept as a reason for extenuating circumstances.

More details on the conditions and process of Extenuating Circumstances claims can be found in the Academic Quality Handbook. SC01 Extenuating Circumstances form will need to be submitted with associated supporting evidence. (https://www.uwtsd.ac.uk/media/uwtsd-website/content-assets/documents/academic-office/agh-appendices/sc/SC01_Extenuating_Circumstances_Form_Partners_09-2022.docx)

Interruption of Studies

An Interruption of studies is defined as a formal extended break in a student's study during which a student is not required to engage with his/her studies. Students do not have the automatic right to interrupt their studies; a request to interrupt studies must be made to the Academic Office via the UWTSDBA Local Secretariat on the approved form at least 2 weeks before the commencement of semester. The grounds on which a student can request an interruption of studies are as follows:

- Health or medical;

- Maternity, paternity or adoption leave;
- Compassionate (including bereavement and serious domestic difficulties);
- Financial;
- Exceptional professional commitments;
- Opportunities which contribute to academic development;
- Exceptional circumstances outside the control of the student that seriously compromises his/her ability to continue with his/her studies (including the impact of a situation in relation to learning differences/neurodiversity).

All applications must be supported by appropriate independent evidence. Students who wish to request for an Interruption of Studies should complete and submit the form with supporting evidence: https://www.uwtsd.ac.uk/media/uwtsd-website/content-assets/documents/academic-office/agh-appendices/sc/SC02_Interruption_of_Studies_Form_09-2022.docx.

Incomplete applications will not be approved. The total maximum period for interruption of studies is 12 months. An application for an Interruption to Studies should be read in conjunction with the regulations outlined in the Academic Quality Handbook: <https://www.uwtsd.ac.uk/academic-office/academic-quality-handbook/>.

The administrative fee required for an interruption application is HK\$2,000 for every 3-month period.

Change Mode of Study

The current Hong Kong DBA programme is structured for a full-time study load. Request for a change to Mode of Study is only permitted during the minimum period of study (3 years from your programme registration) and will only normally be actioned on the anniversary registration.

Students who wish to request to change their mode of study are required to complete the Request to Make Change to Study form with justification. The form can be found at: https://www.uwtsd.ac.uk/media/uwtsd-website/content-assets/documents/academic-office/agh-appendices/sc/SC04_Change_to_Mode_of_Study_Form_09-2022.docx.

The application should be read in conjunction with the regulations outlined in the University's Academic Quality Handbook at <https://www.uwtsd.ac.uk/academic-office/academic-quality-handbook/>. The request must be approved by the Research Degrees Committee before any action or change to degree scheme can be made. There is a section of the Request to Make Change to Study form to be completed and signed by the Director of Studies. Students are to consult and seek advice from their supervisory team before submitting the application.

Once a student has changed his/her study to a part-time mode, he/she should expect half the number of supervisory sessions and hours with his/her supervisors in a year, as compared to a full-time mode. The submission time will be doubled based on the remaining time under the original full-time schedule. (For example, if a student has 12 months left until the final submission deadline, then this 12 months will be doubled and the student will have 24 months to the final submission deadline once switched to part-time.) The student will be graduated as a part-time student in the official University record.

Fees Arrangement for Change of Study Mode to Part-time Mode:

1. Pay the original tuition fees for the first 3 years, and pay \$28,000 for every year of part-time study / extended study in the programme.
2. In the case of early submission (before the new minimum submission date), students are still required to settle the full tuition fee for the period covered.

ABOUT ACADEMIC MISCONDUCT AND PLAGIARISM

The University defines academic misconduct as ‘any act, intentional or otherwise, whereby a person may obtain for himself/herself or for another, an unpermitted advantage...’. Committing academic misconduct in assessment is one of the most serious offences in academic life, and its consequences can be severe. It undermines the integrity of scholarship, research, and of the examination and assessment process.

It is very important to understand that it is no defence to claim that academic misconduct has been committed unintentionally, accidentally, due to extenuating circumstances or a long-term impairment (irrespective of whether or not these circumstances or long-term impairment have been acknowledged by the University).

Plagiarism is one type of academic misconduct. Plagiarism is passing off, or attempting to pass off, another’s work as your own. It includes copying the words, ideas, images or research results of another ***without acknowledgement***, whether those words etc. are published or unpublished. It is plagiarism, for example, to copy the work of another student, of a member of staff or a published article without crediting the author. Persons who allow their work to be plagiarised are also guilty.

It should be noted that re-submitting work that has already been submitted for a different assessment task without noting that this is the case is also regarded as plagiarism (and is called self-plagiarism) and will be treated as such.

Plagiarism is one of the worst offences in academic life, and its consequences can be severe. It undermines the integrity of scholarship, research, and of the examination and assessment process. The guidance that follows explains what is meant by plagiarism, describes the University’s regulations for dealing with it, and provides help in avoiding it.

When enrolling as a student at the University of Wales Trinity Saint David you have consented to your work being scrutinised both electronically and in person to check for cases of plagiarism. It is expected that your work will be submitted electronically via VLE.

For submissions outside of the VLE platform, it is equally important that you reference your sources accurately. In some cases you will be expected to submit both hard and electronic copies, which can be checked against the database of the UK Higher Education Plagiarism Detection Service. For handwritten, portfolio and process workbook submissions check with your module tutor if you are in any doubt about whether you have infringed the regulations. They are here to assist you; ensure that you take advantage of their expertise.

Plagiarism: Regulations, Procedure and Penalties

Full details of the University’s procedures and penalties for dealing with issues of plagiarism can be found in Chapter 12 of the *Academic Quality Handbook* and the associated *Academic Misconduct Policy*, which can be seen on the University website:

Avoiding Plagiarism

Coursework, dissertations, or creative work are meant to be your own original work. Obviously you will use the work of others. Not only is this inevitable, it is expected.

All scholarship builds on the work of others. The important thing to remember is always to **acknowledge your sources**. The University recognises four referencing styles: APA, Harvard, IEEE and MHRA and provides a handbook for each of these styles. For your programme of study you should be using Harvard. The handbooks can be found online: <https://www.uwtsd.ac.uk/library/infoskills/referencing-handbooks/>. A Referencing Essentials session will be provided during the first term of your first year but as a general rule of thumb observe the following:

- *Anything that is copied or quoted from another source, including electronic sources such as the internet, must be in quotation marks and attributed to the original author. This may be in the body of the text or as a footnote, depending on which Referencing style you are asked to use.*
- *Paraphrasing or summarising the work of others involves putting their ideas into your words. This is fine, but again, acknowledge your source.*
- *Where you are generally indebted for your ideas to one or two main sources, this can be a bit trickier. If the ideas or the way they are presented come from one or two sources, make this clear. Do the same if they come from lectures. It is important not to claim originality where it does not exist but to indicate in general where the information comes from.*
- *Full citations in timed unseen examinations are obviously not expected, but you should indicate general indebtedness and always credit any quotations you have managed to remember.*

The golden rule is; **'if in doubt, provide references'** and your Referencing Handbook will provide you with specific guidance to help you to do this correctly. For support, contact your tutor.

Other types of Academic Misconduct

There are other types of academic misconduct, including, but not limited to producing work as a group where it is an individual task (called collusion), fabricating data or making false claims to have carried out research, using the service of an essay bank/essay mill, having an unauthorised source of information in an examination, prohibited communication during an examination. The same regulations, procedures and penalties apply to all types of academic misconduct.

LIBRARY AND LEARNING RESOURCES

Learning Resources provided by HKMA

A subsidy of up to HK\$1,000 per year will be provided to each student for applying the library membership at some local university libraries. Relevant receipt must be submitted to the UWTSD DBA Local Secretariat for reimbursement purposes.

Access to University Library

Students may be able to access some of the University's electronic resources, where licensing allows. For further details please go to the Library and Learning Resources web page for partner students at:

<https://www.uwtsd.ac.uk/library/services/services-for-partner-students/>

Currently, students are provided with access to UWTSD Collaborative Partnerships Online Library from EBSCO and ProQuest. The login details are as follows:

Direct EBSCO URL: <https://search.ebscohost.com>

Direct ProQuest URL: <https://search.proquest.com>

(Username and password: to be provided on a separate occasion)

STUDENT SUPPORT

HKMA offers a range of support and services for our students including:

- Academic Guidance
- Counselling

Student Space

HKMA's training rooms are fully equipped with teaching and learning aids, including computers, projectors and DVD players that are suitable for various types of training and classroom activities. The Association's classrooms and meeting rooms are open to the HKMA students for discussions and for undertaking group projects. The availability of student space is subject to advance booking and availability.

Career Development

Every student will be granted a one-year HKMA Associate Membership for free. As a member of the Association, you can enjoy the opportunities to meet and be associated with successful, experienced and professional executives and to develop important business contacts. You will also be regularly brought up-to-date on the Association's services and events through various communication channels.

Staff Student Committees

In order to promote the quality of student learning experience, Staff Student Committee comprising student representatives, teaching team and the HKMA programme team will be formed. Student Representatives will be elected at the beginning of the programme to share student views and issues at the Staff Student Committees meetings.

COMPLAINTS

If you are dissatisfied with an aspect of your experience as a student on a UWTSD programme, you have a right to make a complaint about any specific concern about the provision of your Programme of Study or a related academic service. Students are encouraged, in the first instance, to resolve the matter with the person or persons directly involved. If you wish to make a formal complaint, you should in the first instance pursue it to the HKMA. If you remain dissatisfied, you are then entitled to submit a formal complaint to the University, described in Chapter 12 of the *Academic Quality Handbook* and the associated *Student Complaint Policy*.

Appendix I: Module Specifications

Please note that all modules are subject to change by UWTSD without prior notice.

Module Code	HKBM7000
Title	Approaches to Research and Academic Communication
Level	7
Credits	30
Pre-Requisites	None

AIM(S)

- To prepare the student to participate in academic research and scholarly discussion.

LEARNING OUTCOMES

Upon the successful completion of this module, the student should be able to:

- critically reflect on the role of theory, epistemology, ontology and axiology in shaping and interpreting research;
- critically discuss approaches to reliability, validity and bias in social research;
- fully examine the ethical considerations in social research and develop research designs that meet a high standard of ethical practice;
- critically analyse communications, and communicate scholarship effectively.

INDICATIVE CONTENT

This module develops an in-depth understanding of the philosophy, practice and communication of applied academic research. To this end, students will study the following:

- theory, paradigms, epistemology and ontology – the philosophical underpinnings of research;
- positionality and bias in research;
- reading and evaluating research publications;
- study design – qualitative and quantitative methodology; measurement; experimental, quasi-experimental and naturalistic studies; causality and causal inference; sampling; common pitfalls and problems;
- making sense of data – approaches to data analysis, using theory to interpret data;
- ethics in social research;
- generating theory;
- making a contribution – What makes an original and important research question? linking to other research; applied social research; developing recommendations for evidence-based practice;
- academic communication – academic conventions and styles of communication; conference presentations; journal and report writing; peer reviewing; presenting

Study Time Allocation

The study time for the module is divided as follows:

Activity type	Hours	Percentage
Scheduled learning	60	20%
Independent learning	240	80%
Placement learning	0	0%
TOTAL	300	100%

Module Code	HKBM7002
Title	Managing in Complex environments: Strategies, Insights and Solutions
Level	7
Credits	30
Pre-Requisites	None

AIM(S)

- To provoke an alertness and critical awareness of contemporary people management debates within organisations, in a global context.
- To inspire the student to identify and apply creative solutions to contemporary and complex management challenges that are inherent within all organisations.

LEARNING OUTCOMES

Upon the successful completion of this module, the student should be able to:

- critically identify, analyse and assess the external environment and determine appropriate people management strategies aligned to ensuring organisation and stakeholder success;
- critically debate and put forward appropriate people management strategies that serve to remove indecision and create focus and purpose towards determining appropriate action throughout the organisation.

INDICATIVE CONTENT

This module adopts an applied perspective on contemporary management generally, and people management specifically. In particular, the module content will:

- empower the individual to focus on personal growth strategies that lead to: creative thinking, professional expertise within a specific management function, and a greater understanding of people management generally;
- focus on the importance of building sustainable partnerships with stakeholders, through the development of alternative working practices such as team working -supported by conducive organisational culture and appropriate developmental strategies;
- enable the student to actively respond to contemporary issues creatively and judiciously in a manner that is relevant to the ethical and social dimensions of practical management in the 21st Century;
- interrogate and critically evaluate the changing nature of work and contemporary people management practices that serve to lead individuals and organisations to sustainable success.

Study Time Allocation

The study time for the module is divided as follows:

Activity type	Hours	Percentage
Scheduled learning	60	20%
Independent learning	240	80%
Placement learning	0	0%
TOTAL	300	100%

As this module deals with contemporary issues - which are transitory and changing - the essential and recommended texts and outline of the sessions will evolve. The main texts presented here provide a background to contemporary applied management practice and are more illustrative than definitive. Each of the sessions then develops upon different contemporary themes making use of a full range of textbooks, journal articles, government and industry reports, periodicals and news and media reports.

The module actively encourages students to source their own relevant and contemporary academic and non-academic information concerning contemporary applied people management practice through the exploration of academic journals, industry and Professional sources.

Module Code	HKBM7003
Title	Qualitative Research Methods
Level	7
Credits	30
Pre-Requisites	None

AIM(S)

- To provide a comprehensive grounding of the rationale and principles of qualitative data collection and analysis.
- To equip students with the knowledge required to undertake qualitative research at doctoral level.

LEARNING OUTCOMES

Upon the successful completion of this module, the student should be able to:

- critically consider the underpinnings of qualitative research principles, and be able to recognise strengths and limitations of qualitative research techniques;
- critically assess the contexts appropriate for qualitative research techniques, and be able to apply qualitative data collection and analysis techniques in order to address a research question.

INDICATIVE CONTENT

- Foundation for Qualitative Research (Philosophical underpinning).
- The Planning and Formulation of Qualitative Research.
- Issues of Credibility.
- Moral and Ethical Perspectives in qualitative research.
- Researcher Role (Reflexivity).
- Qualitative Data Collection.
- Interviewing techniques, practice and issues (sensitivity, informal interviewing, repeat interviewing).
- Observational Research.
- Case studies.
- Ethnography (researcher roles, participant/structured observation).
- Visual and Documentary Data.
- Approaching the Analysis of Qualitative Data.
- Analysis through Mechanical/Abstraction/Coding.
- Analytical aids and the use of software to facilitate qualitative analysis.
- Communicating Qualitative Findings (researcher voice, style, structure).

Study Time Allocation

The study time for the module is divided as follows:

Activity type	Hours	Percentage

Module Code	HKBM7004
Title	Quantitative Research Methods
Level	7
Credits	30
Pre-Requisites	None

AIM(S)

- To prepare the student to participate in academic research and scholarly discussion.

LEARNING OUTCOMES

Upon the successful completion of this module, the student should be able to:

- critically assess the appropriate contexts for using quantitative research techniques, the philosophical underpinnings, strengths and limitations of quantitative research;
- design a quantitative research project, with particular attention to hypotheses, data sources, sampling and questionnaire design;
- select from, and implement, a range of quantitative analysis techniques in order to address a particular research question;
- understand and critically evaluate quantitative research papers in the student's subject area of interest.

INDICATIVE CONTENT

- The world in numbers (measurement and operationalisation).
- Quantitative study design and philosophy – theories and data; hypothesis testing; assumptions of quantitative research; debates and paradigms in quantitative study design; statistical modelling.
- Using archival and other secondary data sources.
- Survey and questionnaire design.
- Sampling strategies and power calculations.
- Graphical and numerical techniques for the exploration of large data sets.
- Variable types, descriptive and inferential statistics.
- Assumptions and execution of parametric statistical tests and modelling, eg. t-test, correlation, regression.
- Nonparametric tests and when to use them.
- Exploratory factor analysis.
- The use of statistical software packages such as SPSS in research – how to: input and manipulate data in SPSS; run statistical analyses; and, interpret output.
- Interpreting and writing reports of quantitative findings.

Study Time Allocation

The study time for the module is divided as follows:

Activity type	Hours	Percentage

Module Code	HKBM7006
Title	Visions for the Future – Theoretical Perspectives on Management
Level	7
Credits	30
Pre-Requisites	None

AIM(S)

- To critically reflect on the evolution of contemporary management theory and the relevance of management theory to management practice.
- To apply current academic and theoretical knowledge to contemporary management challenges in a critical and rigorous manner.

LEARNING OUTCOMES

Upon the successful completion of this module, the student should be able to:

- critically analyse the philosophical underpinnings of contemporary management practice and the different contexts, perspectives and paradigms on management;
- critically examine and evaluate and the views of major academic and management theorists;
- critically apply underpinning management theory to current and emerging debates in management practice.

INDICATIVE CONTENT

This module will develop a detailed and in-depth understanding of the development and relevance of theory and philosophical understanding to management practice, and will critically examine the different contexts, perspectives and paradigms that contribute to management understanding and views on the challenges of 21st Century management.

It will critically examine the management theory jungle, and discuss and critically evaluate the views of different theorists and their theories to contemporary management issues.

It will apply theoretical understandings to selected current discussions and debates in management practice, examining the changing external and internal business environment, and the influence of political, economic, social, technological, environmental, legal and regulatory pressures on contemporary management practice.

Study Time Allocation

The study time for the module is divided as follows:

Module Code	HKBM7016
Title	Strategic Change and Organisations
Level	7
Credits	30
Pre-Requisites	None

AIM(S)

- To develop understanding of the theory and practice of strategic change in the organisation.

LEARNING OUTCOMES

Upon the successful completion of this module, the student should be able to:

- recognise the need for strategic change and be able to critically assess the organisational (micro and macro) environment;
- identify barriers and issues to strategic change and recommend approaches to overcome such barriers.

INDICATIVE CONTENT

- Defining and understanding Strategic Change.
- Analysing the strategic context/Environmental Assessment (analysing micro and macro environment, organisational mission and goals, organisational structure and design, analysing resources and capabilities).
- Drivers of Strategic Change (competitive pressures, strategic position and strategic advantage).
- Leading Change.
- Approaches to leading strategic change.
- Change and Individuals (change awareness, emotional transitioning).
- Political and Cultural Processes in Strategic Change (power, politics).
- Response to change (resistance, conflict).
- Organisational Learning.

Study Time Allocation

The study time for the module is divided as follows:

Activity type	Hours	Percentage
Scheduled learning	60	20%
Independent learning	240	80%
Placement learning	0	0%
TOTAL	300	100%

ASSESSMENT

Assessment Component 1

(Tick one)

Module Code	HKBM8000
Title	Research Dissertation <i>(Part 2 comes under the Research Student Regulations)</i>
Level	7
Credits	360
Pre-Requisites	None

AIM(S)

- To undertake research to address a topic of sufficient scope and depth to develop and extend the student's capacity for critical analysis and independent thought.
- To present this research in a critical written format, to be of a standard appropriate for academic publication and / or dissemination to a wider audience.

The student will have:

- the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and largely autonomous initiative in complex and unpredictable situations, in professional or equivalent environments.

LEARNING OUTCOMES

Upon the successful completion of this module, the student should be able to:

- demonstrate the creation and interpretation of new knowledge, through original research or other advanced scholarship, of a quality to satisfy peer review, extend the forefront of the discipline, and merit publication;
- demonstrate a systematic acquisition and understanding of a substantial body of knowledge which is at the forefront of an academic discipline or area of professional practice;
- demonstrate the general ability to conceptualise, design and implement a project for the generation of new knowledge, applications, or understanding at the forefront of the discipline, and to adjust the project design in the light of unforeseen problems;
- demonstrate a detailed understanding of applicable techniques for research and advanced academic enquiry.

The student will show that they are able to:

- make informed judgements on complex issues in specialist fields, often in the absence of complete data, and be able to communicate their ideas and conclusions clearly and effectively to specialist and non-specialist audiences.

INDICATIVE CONTENT

As part of the writing of the thesis and the supervisor process, the student can expect to:

- produce a research proposal for research that is critical and evaluatory of the topic chosen, with clear application of criteria such as appropriateness, practicality, manageability and academic contribution;
- critically consider the ethical issues that specific research topics can generate, and have the ability to make appropriate decisions in terms of scope and methodology to minimise any ethical problems;
- present the proposal to the appropriate organisations and gain ethical approval.
- plan, manage and execute an in-depth research, inquiry or investigation with a business and/or management focus by applying the principles of research design to the formulation of a research question including, where appropriate, formal hypotheses that can be tested and the selection of appropriate research methods for answering these questions. Use of project management skills to budget, manage time and other resources, building and managing relationships; learning and reflection, reviewing and judging.
- The complexities and practical issues of business and management research: Independent learning and development; stakeholder interests and ethical considerations; the investigative process; philosophical considerations; the use of theory; the importance of on-going clear communication.
- explore the literature, writing a literature review, reviewing published literature critically, showing conceptual and theoretical understanding.
- critically evaluate the appropriateness of qualitative/quantitative methods of data collection and analysis to meet the needs of the chosen topic and research questions. Use these (in combination as necessary) to analyse, synthesise, interpret and present the resulting data and also to critique previous research.
- demonstrate the ability to conduct research under supervision in a business and management context, including the ability to critically review published literature, show conceptual and theoretical understanding, identify research problems, use project management skills to budget, manage time and other resources, handle data, interpret results and disseminate findings in a way that is consistent with professional business and management practice and normal principles of research ethics.
- establish clear linkages between academic research and organisational application, in a way that meets the requirements of both settings.
- demonstrate the analytical, numerical, literacy, communication and computer skills to enable critical research to be undertaken, contextualised within a wider academic literature and debate, and be able to apply those transferable skills to develop research-based inquiry in future employment settings.
- critically discuss and argue the findings of the research and draw appropriate conclusions

Study Time Allocation

The study time for the module is divided as follows:

Activity type	Hours	Percentage
Scheduled learning	180	5%
Independent learning	3420	95%
Placement learning	0	0%
TOTAL	3600	100%

ASSESSMENT

A supervisory team will be allocated, and will operate, in accordance with the regulations and Code of Practice for professional doctorates.

Assessment Component 1

Appendix II: Generic Assessment Criteria

GENERIC ASSESSMENT CRITERIA							
Level 7							
In accordance with the Framework for Higher Education Qualifications, at the end of Level 7 students should be able to demonstrate: a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of their academic discipline or area of professional practice; a comprehensive understanding of techniques applicable to their own research or advanced scholarship; originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline; conceptual understanding that enables the student to evaluate critically current research and advanced scholarship in the discipline to evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses. They will be able to deal with complex issues both systematically and creatively, make sound judgements in the absence of complete data, and communicate their conclusions clearly to specialist and non-specialist audiences. They will demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional or equivalent level to continue to advance their knowledge and understanding, and to develop new skills to a high level. They the qualities and transferable skills necessary for employment requiring the exercise of initiative and personal responsibility; decision-making in complex and unpredictable situations/professional environments; and the independent learning ability required for continuing professional development.							

Level 7	FAIL	FAIL	MARGINAL FAIL	SATISFACTORY (Pass)	GOOD to VERY GOOD (Merit)	EXCELLENT (Distinction)	EXCEPTIONAL (Distinction)
Category	0-29%	30-44%	45-49%	50-59%	60-69%	70-84%	85-100%
Engagement with literature (including current research, referencing, academic conventions and academic honesty)	Little or no evidence of reading and/or reliance on inappropriate sources. Views and findings mostly unsupported and non-authoritative. Referencing conventions used incoherently or largely absent.	Poor engagement with essential reading. No evidence of wider reading. Reliance on inappropriate sources, and/or indiscriminate use of sources. Heavily reliant on information gained through class contact. Inconsistent and weak use of referencing.	Engagement with a very limited range of relevant and credible sources. Some omissions and minor errors. Referencing conventions evident though not always applied accurately or consistently.	Engagement with an appropriate range of research-informed literature, including sources retrieved independently. Some over-reliance on texts. Referencing may show minor inaccuracies or inconsistencies.	Engagement with a wide range of research-informed literature, including sources retrieved independently. Selection of relevant and credible sources. Very good use of referencing, with no/very few inaccuracies or inconsistencies.	Engagement with an extensive range of relevant and credible literature, informed by the latest research. Consistently accurate application of referencing.	Exceptional engagement with an extensive range of relevant and credible literature, informed by the latest research. High-level referencing skills consistently and professionally applied.
Knowledge and understanding (A systematic, conceptual understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed	Major gaps in knowledge and understanding of the subject matter is not systematic. Substantial inaccuracies. No awareness of current problems, insights or the latest research and/or advanced scholarship	Gaps in knowledge, with only superficial systematic understanding. Some significant inaccuracies and/or irrelevant material. No critical awareness of current problems,	Limited knowledge and systematic understanding of the concepts and principles within the subject area, which to some marginal extent, is informed by current research and scholarship. Some critical	Knowledge is accurate and reasonably detailed. A systematic understanding of the field of study informed by, to some extent, current research and scholarship. A critical awareness of current problems and/or new insights though	Knowledge has a well-defined focus, which is reasonably extensive, coherent and detailed, with a critical awareness of current problems and/or new insights. Exhibits	Excellent mastery of a complex and specialised area of knowledge. A systematic, excellent understanding of the concepts of the subject informed by current research and scholarship. Highly critical	Exceptional mastery of a complex and specialised area of knowledge. An exceptionally critical awareness of current problems and/or new insights. An outstanding understanding of the concepts of the subject, well-informed by current research

Level 7	FAIL	FAIL	MARGINAL FAIL	SATISFACTORY (Pass)	GOOD to VERY GOOD (Merit)	EXCELLENT (Distinction)	EXCEPTIONAL (Distinction)
Category	0-29%	30-44%	45-49%	50-59%	60-69%	70-84%	85-100%
by, the forefront of the discipline; a comprehensive understanding of techniques applicable to their own research)	within the discipline.	insights, or latest research within the discipline.	awareness of current problems and/or new insights, but often under-developed.	this may be under-developed occasionally.	good understanding of the breadth and depth of contemporary and established views, and the work is, at least in part, well-informed by current research and scholarship.	awareness of current problems and/or new insights. A critical, awareness of how the boundaries of knowledge are advanced through research.	and scholarship. A critical, sophisticated and nuanced awareness of how the boundaries of knowledge are advanced through research.
Cognitive and intellectual skills (Critical evaluation of current research and methodologies and develop critiques of them and, where appropriate, to propose new hypotheses; make sound judgements in the absence of complete data.)	Wholly or almost wholly descriptive work. Little or no evaluation or critique or attempt at a systematic approach. Failure to develop arguments, leading to illogical or invalid judgements. Unsubstantiated generalisations, made without use of credible evidence.	Largely descriptive work, with superficial use of critical evaluation of research and methodologies. Absent or weak development of hypotheses and judgements. Information accepted uncritically, uses generalised statements made with scant evidence and unsubstantiated opinions. Ideas sometimes illogical and contradictory.	Limited attempt at critical evaluation/ critique of current research and methodologies, tending towards description. Limited attempt to propose new hypotheses. Can deal with complex issues but not systematically or creatively. Some evidence to support emerging judgements but these may be underdeveloped or with a little inconsistency / mis-interpretation. May assert rather than argue a case.	Some critical evaluation/ critique of current research and methodologies, though slightly underdeveloped in places. Proposes adequate but limited new hypotheses, where relevant. Can deal with complex issues but not fully systematically or creatively. Ability to make judgements based on data (that may be incomplete) but with some tendency to assert/state opinion rather than argue on the basis of reason and evidence.	Sound critical evaluation/ critique of current research and methodologies, Proposes new hypotheses, where appropriate. Can deal with complex issues systematically and with some creativity. Ability to make sound judgements based on data (that may be incomplete)	Excellent critical evaluation/ critique of current research and methodologies, Proposes innovative hypotheses, where appropriate. Can synthesise complex issues systematically and creatively. Ability to investigate contradictory or incomplete information and make strong, persuasive, arguments and sophisticated judgements.	Exceptional critical evaluation/ critique of current research and methodologies, Proposes innovative hypotheses, where appropriate. Exemplary systematic and creative synthesis of complex issues. Ability to investigate contradictory or incomplete information and make strong, persuasive, arguments and sophisticated, nuanced, judgements. Potential for journal publication or doctoral research.
Practical skills (Originality / creativity in the application of knowledge, tools and techniques and in tackling and solving problems in complex and unpredictable professional situations; practical use of established techniques of research and enquiry to	Limited or no use of methods, materials, tools and/or techniques. Little or no appreciation of the context of the application. Limited understanding of the application of theory to practice or making appropriate links between the two.	Rudimentary application of methods, materials, tools and/or techniques but without consideration and competence. Flawed appreciation of the context of the application. Weak understanding of the application of theory to practice, with	An awareness and mostly appropriate application of well-established methods, materials, tools and/or techniques, with occasional errors. Basic appreciation of the context of the application. Theoretical knowledge and understanding applied in	An appropriate application of standard methods, materials, tools and/or techniques. Clear appreciation of the context of the application. Mainly consistent, accurate and logical application of theory to practice, making appropriate links between the two. Can identify problems and	A very good application of a range of methods, materials, tools and/or techniques. Very good consideration of the context of the application, with perceptive insights. Can identify problems and propose appropriate	An advanced application of knowledge, methods, materials, tools and/or techniques. The context of the application is well considered, and insightful. Can identify complex problems and propose excellent solutions. An excellent grasp of techniques	Exceptional application skills in complex, unpredictable, contexts, drawing skilfully on the latest research within the discipline. Can identify complex problems and propose sophisticated, original solutions. An outstanding application of techniques applicable to own research or advanced

Level 7	FAIL	FAIL	MARGINAL FAIL	SATISFACTORY (Pass)	GOOD to VERY GOOD (Merit)	EXCELLENT (Distinction)	EXCEPTIONAL (Distinction)
Category	0-29%	30-44%	45-49%	50-59%	60-69%	70-84%	85-100%
create and interpret knowledge in the discipline.)	Very weak problem-solving skills in complex and unpredictable contexts.	only occasional evidence of making appropriate links between the two. Weak problem-solving skills in complex and unpredictable contexts.	practice, but not always making logical links between the two. Can identify problems and propose basic solutions without fully appreciating the complexity of unpredictable contexts.	propose mostly appropriate solutions in complex and unpredictable contexts, with elements of originality.	solutions in complex and unpredictable contexts. Evidence of originality and creativity.	applicable to own research or advanced scholarship. Shows originality in application of knowledge and techniques, and of how established techniques of enquiry create and interpret knowledge in the discipline.	scholarship. Shows originality in application of knowledge and techniques, and of how established techniques of enquiry create and interpret knowledge in the discipline with assimilation and development of cutting edge processes and techniques.
Transferable skills for life and professional practice (Exercise of self-direction, autonomy and personal responsibility; plan and implement tasks at a professional level; independent learning; use appropriate media to communicate effectively and professionally to a variety of audiences; fluency of expression; systematic approach; clarity and effectiveness in presentation and organisation.)	Communication medium is inappropriate or misapplied. Work is poorly structured, disorganised and/or confusingly expressed. Very weak use of language and/or very inappropriate style. Little or no evidence of autonomy (or collaboration, where relevant) in the completion of tasks. Little or no evidence of the skills required in professional, postgraduate employment.	Communication medium is poorly designed and/or not suitable for the audience. Work is poorly presented in a disjointed manner. It is loosely, and at times incoherently, structured, with information and ideas often poorly expressed. Weak use of language and/or inappropriate style. Weak independent initiative (or collaboration, if relevant). Limited evidence of the skills required in professional, postgraduate employment.	Can communicate in a suitable medium but with some room for improvement. Mostly ordered presentation and structure in which relevant ideas / concepts are reasonably expressed. Work may lack coherence in places. Can work as part of a team, but with limited involvement in group activities. Demonstrates some but not all of the basic skills required in professional, postgraduate employment, with some areas of minor weakness.	Can communicate effectively in a suitable format, but may have minor errors. Mostly coherent, organised work, in a suitable structure and is for the most part clearly expressed. Can work effectively independently and/or as part of a team, with clear contribution to group activities. Demonstrates the skills required in professional, postgraduate employment, with some areas of strength and some of minor weakness.	Can communicate well, confidently and consistently in a suitable format. Work is coherent, fluent, well-structured and organised. Can work very well autonomously and/or as part of a team, with a good contribution to group activities. Demonstrates comprehensive professional, postgraduate employment skills.	Can communicate professionally confidently and consistently in a suitable format. Work is coherent, very fluent and is presented professionally. Can work autonomously with initiative. Where relevant can work professionally within a team, showing leadership skills as appropriate, managing conflict and meeting obligations. Demonstrates excellent professional, postgraduate employment skills and a strong appetite for further development.	Can communicate with an exceptionally high level of professionalism. Work is remarkably coherent, very fluent and is presented professionally. Can work outstandingly well and professionally within a team, showing advanced leadership skills. Demonstrates exemplary professional, postgraduate employment skills and a strong appetite for further development.

Appendix III: Assignment Cover Sheet

University of Wales

Trinity Saint David

LEVEL 7 ASSESSMENT SPECIFICATION

Student name:		Student ID number:	
Programme:			
Module:			
Module code:		Contribution to overall module assessment (%):	
Lecturer:		Internal verifier:	
Assignment title:		Word count (or equivalent):	
Submission deadline:		Return date of provisional marks & written feedback:	
Submission method:	All written assessments, where practical and possible, must be submitted via Turnitin unless otherwise instructed by the Lecturer. (Please DO NOT put this assessment specification into Turnitin or it will match many similarities with other students' submissions.) Alternative submission method (if applicable): Late submission of the assessment will result in a late penalty mark. Penalties for late submission: Up to one week late, maximum mark of 50%. Over one week late, 0%. Only the Extenuating Circumstances Panel may approve a change to submission dates.		
Academic honesty / referencing:	Academic honesty is required. In the main body of your submission you must give credit to authors on whose research and ideas your work is based. Append to your submission a reference list that indicates the books, articles, etc. that you have used, cited or quoted in order to complete this assessment.		

Appendix IV: Arrangement During Adverse Weather Conditions

Actions to be taken under the adverse weather conditions announced by The Hong Kong Observatory (as of 2 Dec 2022):

BEFORE CLASS / EXAMINATION COMMENCEMENT :	
Adverse Weather Signals	Action to be Taken
When Typhoon Signal No. 8 or above / Black Rainstorm Warning is in force / likely to be issued :	
1. at or after 7:00 am	Morning sessions of classes / examinations that are held between 9:00 am and 1:59 pm will be cancelled
2. at or after 12:00 noon	Afternoon sessions of classes / examinations that are held between 2:00 pm and 5:59 pm will be cancelled
3. at or after 4:00 pm	Evening sessions of classes / examinations that are held after 6:00 pm will be cancelled
Adverse Weather Signals	Action to be Taken
When Typhoon Signal No. 8 or above / Black Rainstorm Warning is lowered :	
1. at or before 7:00 am	All classes / examinations will be held as scheduled
2. at or before 12:00 noon	Classes / examinations from 2:00 pm or thereafter will be held as scheduled
3. at or before 4:00 pm	Classes / examinations from 6:00 pm or thereafter will be held as scheduled

CLASSES / EXAMINATIONS THAT HAVE ALREADY STARTED :	
Adverse Weather Signals	Action to be Taken
1. When Typhoon Signal No. 8 or above is in force	All classes / examinations already in progress will be dismissed immediately
2. When Black Rainstorm Warning is in force	All classes / examinations will continue as scheduled

Arrangements for class / examination re-scheduling will be announced shortly.

<https://www2.hkma.org.hk/general/adverse-weather-arrangements-degree-non-degree-programmes-conducted-by-local-lecturers/>
