

Group Presentation – Research proposal
How do students use technology to collaborate at
UWTSD?

Student name: Madalina Lautaru

Student number: 2126492

Student name: Ana-Maria Vlad

Student number: 2129604

Lecturer name: Nick Worthington

Topic: Which digital tool is most used by students at
UWTSD to collaborate together?

Introduction and the chosen research question

As the respective section demands, it is required to be identified that the respective institution that can be recognized as the 'University of Wales Trinity Saint David' (UWTSD) mainly utilizes 'Microsoft Teams' through which they are constantly conducting communications among their students.

Any relevant existing research

Significance of online collaboration or student digital skills

Here, it is to be stated that online collaboration through a constant utilization of digital skills can increase a certain amount of creativity in any individual student through which the entire task's value can be influenced to some extent.

The digital tools used by the students of UWTSD

In this context, it is to be addressed that the very students of UWTSD mainly utilize 'Microsoft Teams' through which the respective students can arrange meetings, video, and audio calls, files, chats, and notes for themselves.

Ethical considerations

Here, it is to be mentioned that all the information that is going to be incorporated is valid and collected from only trusted sources through which the entire research material can be concise by concrete evidence only. Besides, the attached data sets would be accumulated from several news, journals, and books, along with survey and questioner sessions through which the entire research work is going to be established.

The proposed method of research

What questions will you ask?

1. Do you think that the digital tools that most of the students of UWSTD use to collaborate with each other?
2. What is your admission year in UWSTD?
3. Do you believe that students are digitally remaining dependent on each other while they can physically commune with each other?

Who will you ask?

The entire team would be conducting a questionnaire session where 50 students and 6 faculty heads are participating. Besides, an online survey session is going to be conducted through which the required information can be collected to include with this research material.

Who will you ask?

It needs to be addressed that the entire research team would be conducting a questionnaire session on UWSTD students and teachers through which the required information can be accumulated.

Hypothesis, and the significance of the hypotheses

H1: Digital tools utilized by students of UWSTWD are useful for collaboration

H0: Digital tools utilized by students of UWSTWD are not useful for collaboration

As mentioned previously, there are numerous areas that the research proposal would concentrate on but its topic orientation is to figure out the digital tools that are being utilized by the students of UWSTD through which the entire research objectives can be discussed.
