More understanding on Threats, Vuln and Attacks is required. Some parts of the reports seems misleading. Threats and attacks needs more clarification. Could have got better clarity if referred to more academic credible literatures. Could have done more in-depth description on .rekt file format attacks. The Guideline is good. Well classified, covering aspects of security focusing on Customers, staff etc. Poor is ok. The strength of the statements needs improvement.	9.9

Packet Tracer Certificate attached. Physical Topology design is given. However Logical Topology could have added with more adequate information. Implementation done. However, the design is very basic. IP Addresses configured. Basic configurations could have been done in the network. Wireless network not configured.	20
