CRITERION 1 (35%)

Overall quality, including usability and relevance (practicality) of the implemented Web application

Ticketing not implemented. Need to pay attention

on session while switching between users. Admin module at present only allows deletion from database.

20

CRITERION 2 (10%)

Data Display and interactive queries

Font size is too small.

6

CRITERION 3 (35%)

Implementation of an appropriate and properly normalised database, CRUD Operations

Required tables are created. Since ticketing is not implemented, the tables are standalone. During demo all required tables were in database. In the submitted database, there is an error in creating one of the tables during import process.
