

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
You have demonstrated that you have applied research techniques to your studies and is demonstrated within your report. However, this should be representative of the years activities. You should have also commented on referencing standards e.g. IEEE and they could be applied to your work - bear in mind you have referenced this report. Reading log is a set of links - but how did you prepare for an piece of coursework i.e. research, reference etc.	20	10
2. Knowledge and Understanding Skills		
According to evidence submitted, you are on the "correct" path to becoming a good HE student, but this should reflect on what has happened since the start of the year and what you need to progress with your studies - definitely a missed opportunity	20	8
3. Cognitive and Intellectual Skills		
Same issue here, you are becoming a better student - as per evidence. But this is a journey from the start of the year and what you have focused on is a "part" of the year, evidence supplied it too narrow. Remember, this is about you and all modules this year	20	9
4. Practical Application Skills		
Definitely a link to all sections here - focusing on elements at specific points is welcome, but as mentioned this is a journey of experiences through the year. Also, presentation was excellent, shame you did not follow this up after comments made. Issues around managing your work/version control is missing. If you kept on top of the requirements of the coursework this year, this would be a very good report	30	14
5. Transferable Skills for Life and Professional Practice		
Generally, a well laid out and easy to follow report. However, missing page numbers is unforgivable, illustrations/images should have been annotated and supplemental material that supports the report should be in an appendix. Too many simple mistakes here	20	6

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)	Late Submission Penalties (tick if appropriate)		47
	Up to four weeks late		
	1st/2nd/3rd attempt?	1st
