

Assignment 2 - Redesign a Classic for the Year 2030

Introduction:

Retro Evolution – Next generation+ or evolution of an existing vehicle i.e., Porsche 911, Ford Fiesta, VW Golf, BMW 3, Yamaha R1 etc.

Retro Reconsideration – New vehicles with a throwback to the past but not a new version of an old car i.e., Alfa Mito, Alfa, 8C, Triumph Rocket etc.

Retro Redesign – A new take on a past classic i.e., New Mini, New Beetle, New Fiat 500, Triumph speed twin etc.

Task:

Select one of the cars from the selection offered below and spend the first week or two collecting images and practice drawing the car from all views. Use images as underlays initially, then go freehand and eventually from memory. Produce a minimum of 10 pages for your sketch book.

Your job is to redesign your chosen car for the year **2030** either as a Retro Evolution, Retro Redesign or a mixture of both. Sketch various ideas of how you want to project your car to 2030.

Pick your favoured direction and select a good front & rear perspective sketch and use them to practice & produce front and rear $\frac{3}{4}$ perspective presentation renderings, in a manual style of your choice i.e. marker, watercolour, quality shaded colour pencil, gouache, oil painting or even biro, white pencil & marker on canson paper

Deadline Tue 12th January 2021 12:00 noon, in your studio AAG01 as a pack.

Covid-19 Note: A 'OneDrive' Folder will be set up to allow online submissions for those unable to attend. You will need to scan or photograph your work and submit as Jpegs a PDF file or create a PowerPoint presentation. Label Files: **M4X02236-A2_ Initial _Last Name**

Select one of these:

1959 - Isetta Bubble Car

Citroen 2CV

1967 Toyota 2000GT

Ford Capri Mk 1

1959 Mk9 Jaguar

1959 Cadillac Coupe De Ville
