At the end of
this
presentation
you should
know :

Why do I choose this job

What is the child psihoterapy

What skills I have already and what skills do I need to improve

My weaknesses , threats and opportunities in this job using the Swot analysis techninque

Details about this kind of job and where we cand found it.

Why do I choose this job ?

- ▶ **First of all , as can already be seen from the name of the job , is about childrens , is about their feelings , about their souls , is about their purity and about the opportunity to help them , this is the most important reason for choosing this job , and not so far , because is about to work with people , to see them , listen to them , and see them every day.**

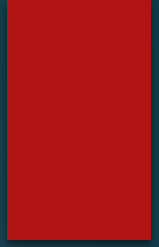

What is the child psychotherapy ?

- ▶ According with Todd Hinds(2009) who is already a Child and Adolescent Psychotherapist the child psychotherapy is the work of a therapist to find a way of carefully making this explicit to the child so that a shared insight into the child's way of functioning is arrived at. Over time , this understanding can be internalised and the child can again to go back on her life and start to feel well and with nothing who can scary him .

Skills to be a good child psychotherapist

What I have :	What I need to learn
Patience	The ability to cope with the extremes of human emotions
sincerity	The capacity to differentiate your personal feelings and emotions from those of the child .
Sensitivity and empathy	The ability of listening

My SWOT analysis

Strengths	Weaknesses	Opportunities	Threats
communication	sensitivity	Work with childrens	When I will finish with a child and I will not see him again
empathy	attachment	Learn more about feelings
