Submission extract:

'How to Login' script There are a number of ways to login into LinkedIn Learning. Firstly, you can go to the main university page, where you will see quick links at the top of the page. Click on quick links, and find the 'DigiCentre' tile. Alternatively, you can also click on the Digital Skills title from the library catalogue to access the same page. Once on the DigiCentre page, click on either the staff or students tile and find the hyperlink that says 'registered before using any of the LinkedIn courses.' You will then be prompted to click a blue box that will say 'continue to University of Wales Trinity St David.' Next, just click 'sounds good.' However, if you don't see these actions, please move onto the next step. You will then be asked for your login details, which will be your university username and password. Following this, you will be asked to authenticate either using the authenticator app or by text or call. Once you have access to LinkedIn Learning, you can then choose areas that are of interest to you. You can just click 'Maybe Later' on the weekly goal section. Next, you can link your professional LinkedIn account. If you do not have a LinkedIn account then just click 'Not now.' Congratulations you are all done and just need to click 'Start Learning.' Now, go ahead and watch the next video to find out how to search for courses that can help improve your digital skills. As well as learning more about the LinkedIn Learning interface.

9. Under similarity, it may say pending then it will change to your similarity score – 0 – 25% will be green, which will indicate a good similarity score. You can submit a draft paper beforehand to check this.
10. After you receive your grade, you can go into Turnitin by clicking on the pencil icon, where you will be able to view your comments. You can also download the file onto your computer by clicking the downward facing arrow icon.
