The background features a large, semi-transparent yellow circle centered on the left side. To the right of the circle, there are dark blue and black geometric shapes, including a large triangle pointing towards the right. The overall composition is abstract and modern.

Evidence Based Practice in the medical field helps to successfully solve the problems arising in the patient's care, based on the best existing evidence such as their records, patient data, experiences, by expertise and putting primary the preferences and values of patients.

(Burns. Rohrich and Chung, 2011)

The background features a large, solid yellow circle centered on the right side. To the left of the circle, there are two overlapping geometric shapes: a dark grey triangle pointing towards the top-left and a light yellow triangle pointing towards the bottom-left. The overall composition is minimalist and modern.

As a response to the pandemic the health care sector introduced quickly new strategies ,new tools, many technology-based, because the physical contact was not allowed

During the pandemic, without the existence of EBP, people in the medical field did not have many options because the data were deficient or sometimes even non-existent at beginning
