

Use doubles facts to work out new facts

Work across the page, from top to bottom.

Answer the first question in each row using your knowledge of doubles.

Use your answer to find the solution to the second question, by logic.

When you have finished the page, check the second column on a calculator.

1. $7 + 7 =$ so, $7 + 6 =$

2. $12 - 6 =$ so, $12 - 5 =$

3. $15 + 15 =$ so, $15 + 16 =$

4. $80 - 40 =$ so, $80 - 41 =$

5. $24 + \dots = 48$ so, $24 + \dots = 47$

6. $70 = \dots + \dots$ so, $70 = 34 + \dots$

7. $106 + 106 =$ so, $106 + 105 =$

8. $36 - 18 =$ so, $36 - 19 =$

9. $25 + 25 =$ so, $26 + 26 =$

10. $\dots + \dots = 416$ so, $207 + 208 =$
