

ARC APEX

High Performance Electric Racing

- Delivers superbike-level acceleration and race pace using a high-performance electric powertrain.
- Target peak output of 120 kW ($\approx$ 160 hp).

WHO IS IT FOR?

Built for riders who crave precision, intensity, and the pure thrill of electric performance. Engineered for competitive racers and track-day purists who demand control, consistency, and uncompromising speed.

FEATURE OVERVIEW

- ❑ Curved Oled display
- ❑ Integrated GPS lap timer
- ❑ Battery and thermal Monitoring
- ❑ Multiple power maps
- ❑ Switchgear control

No lights

No limits

Just speed

Just silence

Just apex

SPECIFICATIONS

- ❑ Power:
160 bhp
(120 kW peak)
- ❑ Torque:
250 Nm motor torque (peak)
- ❑ Battery range
Designed for a ~20 minute flat-out track stint at around 65 kW average
- ❑ Charging time:
0-100%: about 60-75 minutes
