Comments:

evolved

No demo available but a basic
UI on android device - buttons only.
& a camera.

Presentation v. well structured &
presented - a little fast perhaps.
Good use of graphics, etc.

Open CV - populated - nothing working
yet. Android libs - are they available?

Response to questions - lacked clarity
and in-depth technical understanding in
several places. Understanding of ^{Fundamental} augmented
reality concepts good but Even failed to
explain how these ideas related to his
work over the last few months with his project
Supervisor. Even needs to be clear about his
aims and how these relate to his structure/Architecture.
