The background is a dark blue gradient with a complex, abstract digital cityscape. It features several glowing, three-dimensional cubes and rectangular blocks of varying sizes. These blocks are composed of or surrounded by a dense pattern of small, white binary digits (0s and 1s). Bright blue and white light emanates from some of the blocks, creating a sense of depth and digital activity. Scattered throughout the scene are several small, glowing dots in red, green, and blue. Thin, white lines resembling light trails or data paths connect some of the blocks and dots, adding to the dynamic, technological feel of the image.

Citrix

An abstract digital cityscape composed of numerous glowing cubes and rectangular blocks. The structures are covered in binary code (0s and 1s) and emit various colors of light, including blue, green, and red. The background is a gradient of dark blue to light blue. Several colored circles (red, green, purple) are scattered throughout the scene, and thin lines of light connect different points on the structures.
