24 rolls
4" Bandages:
24 rolls
Release Cream:
14 oz.

R x 4
x 24
x 24
A B x 1.5

RELEASING BODY DOUBLE® SILICONE

Body Double® will not stick to skin but it will "mechanically lock" onto skin hair including facial hair, eyebrows, eyelashes etc. ***Body Double® Release Cream*** or ***HYPER-FOLIC®*** release additive will minimize mechanical lock. Also, you can shave the intended molding area instead of using releasing agents prior to applying **Body Double®**.

Body Double® Release Cream (available from Smooth-On) is a non-toxic skin conditioner that will aid in releasing ***Body Double®*** mold rubber from skin surfaces with or without hair. Liberally apply ***Body Double® Release Cream*** to all skin surfaces (bare and hair covered) that will contact mold rubber. Take special care to aggressively massage and work the cream into and over body hair. Body hair not thoroughly coated with release cream will become encapsulated and stuck in rubber which will be difficult & painful to remove.

HYPER-FOLIC® Release Additive is a non-toxic, skin conditioning liquid that is mixed with ***Body Double®*** silicone mold rubber prior to applying rubber to the skin. ***HYPER-FOLIC®*** will not only aid in releasing cured rubber from the skin but will also release cured rubber from hair-covered skin surfaces (closely cropped beards, moustaches, eye-brows,, etc.)
