

Julia Griffiths-Jones

Mae Julia Griffiths-Jones yn cael ei hysbrydoli gan linellau sy'n cael eu creu gan frethyn a dillad wedi'u gosod allan neu'u hongian ar lein. Mae hi hefyd yn gweithio gyda gwifren ac yn gosod rhannau o'u gwaith i sefyll allan o'r darlun fel bod cysgodion hefyd yn ran o'r gwaith.

Julia Griffiths-Jones draws inspiration from lines formed by cloth and clothing that is set out or hung on a line. She also works with wire and places parts of the piece to stand out from the drawing so that shadows also form part of the work.
