Section	Your response (Use your own words!)
1. Research	I first started to think of one website to kick start my research on becoming a mental Heath support worker, which was the NHS careers website, it gave me some useful information that went well but difficult to find the skills needed on this website. I can say using the CRAAP test did help me when sourcing and finding information out on the NHS website.
2. Presenting	When I presented, I felt nervous as it was my very 1 st presentation, I used cards to help me present it but I felt like I jumbled up some parts in it because I didn't do much preparation, I should of recorded myself to look back on how well it went, if I missed out anything, if it flowed right.
3. Challenges you faced with your presentation	I faced all sort of challenges in my presentation, sourcing one website (NHS careers website) which I thought would be a good one but didn't have not enough key information on my chosen role, making sure it was 5 minutes long, where to being.
4. Actions to improve	I should give myself more time to prepare, record myself speaking.
5. Further steps needed to Prepare for Task 3	Research more websites with more relevant information, find the correct source of information to discuss and put in my own words to complete task 3.
