

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
General Comments		
To be fair, this is a simplistic website that demonstrates your skills with JS/jQuery and appears to work well. You should have tested the website more carefully as there is an issue with your links going to a dashboard that does not exist (error 404). Also, and for completeness, index.html should be in the root of your website. If functionality exists outside of index.html then redirect	100	65
1. Engagement with Literature Skills		
N/A	0	0
2. Knowledge and Understanding Skills		
Emphasis here relates to the approach to you developing the various JS elements that are required for this assessment and not a brief discussion with large sections of code. The rubric does comment on "snippets" of code. Also, you need more "relevant" commenting within your codebase	15	7
3. Cognitive and Intellectual Skills		
Although you have linked relevant of your website that formulate JS functions are fine, but back to the problem noted above, this is about how you developed aspects of this website as it is somewhat difficult to follow.	15	7
4. Practical Application Skills		
Generally, practical implementation is fine, but there is a problem with you menus and error 404. You have a number of JS/jQuery elements and does demonstrate a good implementation (do like the task list), data validation is somewhat weak in the range of validation types. But the concern here relates to the large amount of JS code in your source code and no link/reference to source i.e., was this a starting point with substantial modification or something else - this will be clarified when the site is demonstrated	70	51
5. Transferable Skills for Life and Professional Practice		
N/A	0	0
