

1 Exterior View

Site has a linear layout, allowing a more modern feel. Space for cars to park and a drop-off point are situated at the front entrance.

3 Corridor View

Corridor spaces to be double height to allow natural light to fill and flow throughout the space.

2 Interior View

Individual rooms constructed up to 3000mm to include suspended ceiling. Glass panels to have white mullion frames.

4 Playground Area

Outside area to consist of landscaped grass area, tarmac playground and flat grass area.
