GENERAL COMMENTS

Instructor

I really liked your presentation, in some ways it is very unique compared to the others that have been submitted. I think it is because you are starting from a different point to many, in that you could have gone straight to first year.

This means that you have reflected on the term in a different way to the rest of the cohort. However it still meets the assignment brief and is insightful.

I understand the desire to do more hands on workshop sessions and we are looking at organise some sessions during Term 2, so I will keep you posted.

The one area that your presentation could have included more on, would be looking forward and what you might do to improve your studies going into Term 2.

Otherwise this is very good.

In terms of the assessment criteria, I believe you fall in the 85-100% bracket, which says the following;

- Exceptional evaluation of the underlying concepts and principles based evidence.
- Exceptional ability to devise arguments using evidence and make wholly appropriate and valid judgements.
